

ITINERARY
BAHAMAS Endemics & Kirtland's Warbler
March 31-April 4, 2018

A Great Lizard Cuckoo peers over leaves at a Field Guides group. These large cuckoos are found only in the Bahamas and on Cuba. As the name suggests, they eat many small animals, including lizards. Photograph by guide Jesse Fagan.

We include here information for those interested in the 2018 Field Guides Bahamas tour:

- a general introduction to the tour
- a description of the birding areas to be visited on the tour
- an abbreviated daily itinerary with some indication of the nature of each day's birding outings

Those who register for the tour will be sent this additional material:

- an annotated list of the birds recorded on a previous year's Field Guides trip to the area, with comments by guide(s) on notable species or sightings (may be downloaded from our website)
- a detailed information bulletin with important logistical information and answers to questions regarding accommodations, air arrangements, clothing, currency, customs and immigration, documents, health precautions, and personal items
- a reference list
- a Field Guides checklist for preparing for and keeping track of the birds we see on the tour
- after the conclusion of the tour, a list of birds seen on the tour

Lying just across the Straits of Florida, the Bahamas are home to more than 21 species that have rarely or never been recorded in the US. Our tour visits three of the richest islands, where all of these 21 West Indian specialties can be found. We'll begin on Abaco; with its extensive Caribbean Pine forest and mixed hardwood coppice, it is home to many species including the endemics Bahama swallow, warbler, and yellowthroat, Cuban Pewee, and the Bahamian subspecies of Cuban Parrot. And while hummingbirds are few, they include the sparkling Cuban Emerald and the endemic, purple-and-rose-gorgeted Bahama Woodstar.

From Abaco we'll travel to Eleuthera Island. Among the birding highlights are the oversized Great Lizard-Cuckoo that haunts the tall coppice, and possibly a Kirtland's Warbler, an endangered species recently found wintering on just a few

islands. (We found five individuals of this rare warbler in 2009, another in 2010, three in 2011, eight in 2013, three in 2014, and four in 2015!) In the process, we'll have time to enjoy some West Indian butterflies including such beauties as the Atala and Polydamas Swallowtail, along with another 30 species or so that we have recorded on our trips. From Eleuthera we visit the island of Andros for a night where we can hope to find the endemic Bahama Oriole (*Icterus northropi*). This species is only found on Andros (now extirpated from Abaco), with a population estimated to be around just 250 individuals.

If island endemics, cracked conch, and Kalik beer all sound like a good time (they are), then join us in the Bahamas.

About the Physical Requirements & Pace: This tour will not be physically demanding, and the pace will be easy. This will include walking on flat ground for one to three hours at a time. It does get hot (this is the Caribbean!), so prepare to use sun block, wear wide-brimmed hats, and drink plenty of water. Normally, our time in vehicles is limited to short (approximately 45 minute) drives to birding sites. However, because rental vehicles/agencies are limited on all islands, we will be somewhat cramped for these drives (especially when we are with luggage). We have chartered a plane for our flight to Eleuthera from Abaco, and will take scheduled flights from Eleuthera to Andros (via Nassau), and return. In general, space (for people and luggage) is limited on these smaller planes used for inter-island travel and there may be some crowded conditions, but it is only for short periods of travel between islands or between birding sites. The birds and butterflies will more than make up for this!

If you are uncertain whether this tour is a good match for your abilities, please don't hesitate to contact our office; if they cannot directly answer your queries, they will put you in touch with the guide.

About the Birding Areas

Great Abaco Island and Abaco National Park— Just a 45-minute drive south of Marsh Harbour, Abaco National Park is home to four Bahamian endemics: Bahama Woodstar, Bahama Swallow, Bahama Warbler and Bahama Yellowthroat. These species are found nowhere else except in the Bahamas. The entire park is covered in 5000 acres of Bahamian pine (*Pinus caribaea bahamensis*)—savannah with smaller areas of dry coppice woodland. This habitat is home to the northern most population of the Cuban Parrot (*Amazona leucocephala bahamensis*), found on only two islands in the Bahamas: Abaco and Great Inagua. We will spend several days in the pine forest where, in addition to the endemics and the parrot we hope to see West Indian Woodpecker, Cuban Emerald, La Sagra's Flycatcher, Cuban Pewee, Thick-billed Vireo, Olive-capped Warbler, and Western Stripe-headed Tanager. We will also want to spend some

time in the coppice habitat surrounding the park where we have good chances for nominate Red-legged Thrush and Greater Antillean-Bullfinch. There are some cool endemic subspecies, too, like the larger, paler, and vocally different Bananaquit (*C. f. bahamensis*).

Eleuthera Island—there are no pines on Eleuthera, just extensive coppice habitat and beautiful pink sand beaches. Though the birding may seem less intense (fewer species overall on Eleuthera), there are two species in particular that we will be keen on seeing—the Great Lizard-Cuckoo, found only on Andros, New Providence (near extirpated), and Eleuthera in the Bahamas, and the federally endangered Kirtland's Warbler. Both species require a good bit of effort to find, especially the warbler. The Kirtland's was recently discovered to be wintering on Eleuthera in larger numbers than encountered anywhere else on its wintering grounds, which is comprised of just a few Bahamian islands. Our birding efforts for these two important species will take place primarily between Governor's Harbour and Tarpum Bay, but we will also spend time birding to the north, near Gregory Town.

Andros Island— We will fly to Andros for one night to look for the Bahama Oriole. This rare and local oriole, a recent split from Greater Antillean Oriole, numbers just around 250 individuals and is confined to patches of palm groves on the island of Andros (it has been extirpated from Abaco). We will spend our time around the hotel at Small Hope Bay where there are several stands of palm groves; the oriole is found in this area of Andros. We will also make a few short excursions by foot or in a rental van into taller coppice or pine habitat with more chances to find the oriole or another Great Lizard-Cuckoo and other Caribbean specialties.

One of the objectives of our tour is to find the rare Kirtland's Warbler on its wintering grounds. We've had great success in past years, and we expect this year to be no different! Photograph by participant Doug Hanna.

Itinerary for Bahamas Endemics & Kirtland's Warbler

Day 1, Sat, 31 Mar. Arrival. Flight to Marsh Harbour (Great Abaco Island). We'll arrive in the afternoon, which gives us time to check into our hotel in Marsh Harbour and have a few hours of birding nearby before our first evening dinner. Night in Marsh Harbour.

Day 2, Sun, 1 Apr. Abaco National Park. We'll spend all morning in the park with a trip down to Sandy Point. Lunch at Pete's Pub in Little Harbour with an afternoon visit to Cherokee Bay and Bahama Palm Shores. A full day. Back at hotel in late afternoon. Night in Marsh Harbour.

Day 3, Mon, 2 Apr. Flight to Governor's Harbour (Eleuthera Island). We fly to Eleuthera this morning on a chartered flight. Depending on our arrival time we can focus on finding Kirtland's Warbler before lunch and check in to our hotel mid-afternoon. We will venture out for some light night birding tonight; maybe a Barn Owl! Night on Eleuthera (near Surfer's Beach).

Day 4, Tue, 3 Apr. Eleuthera to Andros (via Nassau). We will fly to Nassau to connect with our flight to Andros; we'll fly into Fresh Creek and be transported to Small Hope Bay Lodge (about 20 minutes). We will probably arrive in the early to late afternoon, but the timing will depend on flight times from Eleuthera to Nassau and again to Andros. We should have some time to search for the oriole on the hotel grounds in the evening. Night on Andros.

Day 5, Wed, 4 Apr. Departure. We will catch a mid-morning flight back to Nassau today. **Flights home should be made for noon or later from Nassau.**

About Your Guide

Jesse Fagan (a.k.a. the Motmot or just “Mot”) has been passionate about birds since his teens, when he had an encounter with a flying Pileated Woodpecker. He has birded throughout the United States, including spending seven years in Texas, and since 1995 has been birding and for a time living in northern Central America.

He has birded extensively throughout North America and in 2016 published the [Peterson Field Guide to Birds of Northern Central America](#) (Houghton Mifflin Harcourt) with co-author Oliver Komar and illustrators Robert Dean and Peter Burke. In addition, Mot has experience in many other areas of Central and South America, Europe, and Africa. He likes to think he can bird anywhere at any time and still show you the birds, but most importantly, a good time. Jesse holds a B.S. and an M.S. in mathematics from Texas Tech University. He is currently living in Lima, Peru.

“Jesse’s a great guide: extremely knowledgeable and helpful with the birds, and a whole lot of fun!” S.P., Holiday Costa Rica: Rancho Naturalista

Financial Information

FEE: \$3375 from Marsh Harbour

DEPOSIT: \$330

FINAL PAYMENT DUE: December 1, 2017

SINGLE SUPPLEMENT (Optional): \$350

LIMIT: 6

Other Things You Need to Know

TOUR MANAGER: The manager for this tour is Karen Turner. Karen will be happy to assist you in preparing for the tour. If you have any questions, please don't hesitate to call her!

DOCUMENTS: A current passport valid for three months beyond the date of your return is required for US citizens to enter Bahamas. If you are not a US citizen, please check with the corresponding island consulate nearest you for entry requirements as they vary by island. Information about consulates and entry requirements is generally available online or you can contact us and we will be happy to look this up for you. Passports should have an adequate number of blank pages for the entire journey. Some countries require a blank page for their stamp and as a precaution it is best to have one blank page per country you will visit or transit.

LUGGAGE: Please be aware that many airlines have recently modified their luggage policies and are charging additional fees for checked bags. Updates could easily occur before your departure, so you may wish to contact your airline to verify the policy. Additional charges for bags on any flights, whether these are covered by the tour fee or not, will be the client's responsibility.

TOUR INCLUSIONS/EXCLUSIONS: The tour fee is \$3375 for one person in double occupancy from Marsh Harbour. It includes all lodging from Day 1 through Day 4, all meals from dinner on Day 1 through breakfast on Day 5, the flights from Marsh Harbour to Eleuthera, from Eleuthera to Andros, and Andros to Nassau, all ground transportation, entrance fees, and the guide services of the tour leader(s). Tipping at group meals and for drivers, porters, and local guides is included in your tour fee and will be handled for the group by your Field Guides leader(s). However, if you would like to recognize your Field Guides leader(s) or any local guide(s) for exceptional service, it is entirely appropriate to tip. We emphasize that such tips are optional and not expected.

The above fee does not include your airfare to Marsh Harbour and return from Nassau, airport taxes, visa fees, any checked or carry-on baggage charges imposed by the airlines, any alcoholic beverages, optional tips to local drivers, phone calls, laundry, or other items of a personal nature.

The **single supplement** for the tour is \$350. If you do not have a roommate but wish to share, we will try to pair you with a roommate from the tour; but if none is available, you will be billed for the single supplement. Our tour fees are based on double occupancy; one-half the cost of a double room is priced into the tour fee. The single supplement is calculated by taking the actual cost of a single room and subtracting one-half the cost of a double room (plus any applicable taxes).

The above fee does not include your airfare to and from the Bahamas, airport taxes, visa fees, any checked or carry-on baggage charges imposed by the airlines, alcoholic beverages other than those included at Small Hope Bay Lodge, optional tips to local drivers, phone calls, laundry, or other items of a personal nature.

TOUR LIMITS: Our limits are firm and we don't exceed the limit by one to accommodate a couple when only one space remains open. However, on occasion, we will send along a guide in training on a tour. In these cases, one seat in the van or bus will be taken by the guide in training. Our guides will have a rotation system within the vehicle so that clients share the inconvenience equally. We hope this minor inconvenience will be more than offset by the advantages of having another guide along.

TOUR REGISTRATION: To register for this tour, complete the Registration/Release and Indemnity form and return it with a **deposit of \$330** per person. If registering by phone, a deposit must be received within fourteen days, or the space will be released. **Full payment** of the tour fee is due 120 days prior to departure, or **by December 1, 2017. We will bill you for the final payment at either 120 days or when the tour has reached sufficient subscription to operate, whichever date comes later.** Since the cost of your trip insurance and airline tickets is generally non-refundable, please do not finalize these purchases until you have received final billing for the tour or have been advised that the tour is sufficiently subscribed to operate by your tour manager.

SMOKING: Almost all of our clients prefer a smoke-free environment. If you smoke, please be sensitive to the group and refrain from smoking at meals, in vehicles, and in proximity to the group on trails and elsewhere.

CANCELLATION POLICY: Refund of deposit and payment, less \$100 handling fee, will be made if cancellation is received up to 120 days before departure. If cancellation occurs between 119 and 70 days before the departure date, 50% of the tour fee is refundable. Thereafter, all deposits and payments are not refundable.

This policy only applies to payments made to Field Guides for tour fees (and any services included in those fees). Airline tickets not included in the tour fee and purchased separately often carry penalties for cancellation or change, or are sometimes totally non-refundable. Additionally, if you take out trip insurance the cost of the insurance is not refundable so it is best to purchase the policy just prior to making full payment for the tour or at the time you purchase airline tickets, depending upon the airlines restrictions.

The right is reserved to cancel any tour prior to departure, in which case full refund will constitute full settlement to the passenger. The right is reserved to substitute in case of emergency another guide for the original one.

TRIP CANCELLATION & MEDICAL EMERGENCY INSURANCE: We strongly recommend you consider purchasing trip cancellation (including medical emergency) insurance to cover your investment in case of injury or illness to you or your family prior to or during a trip. Because we must remit early (and substantial) tour deposits to our suppliers, we cannot offer any refund when cancellation occurs within 70 days of departure, and only a partial refund from 70 to 119 days prior to departure (see CANCELLATION POLICY). In addition, the Department of State strongly urges Americans to consult with their medical insurance company prior to traveling abroad to confirm whether their policy applies overseas and if it will cover emergency expenses such as a medical evacuation. US medical insurance plans seldom cover health costs incurred outside the United States unless supplemental coverage is purchased. Furthermore, US Medicare and Medicaid programs do not provide payment for medical services outside the United States.

When making a decision regarding health insurance, Americans should consider that many foreign doctors and hospitals require payment in cash prior to providing service and that a medical evacuation to the United States may cost well in excess of \$50,000. Uninsured travelers who require medical care overseas often face extreme difficulties. When consulting with your insurer prior to your trip, please ascertain whether payment will be made to the overseas healthcare provider or whether you will be reimbursed later for expenses that you incur.

US citizens will receive from us a brochure regarding optional tour cancellation/emergency medical insurance. Our agent, CSA, will insure for trip cancellation and interruption, medical coverage, travel delay, baggage loss and delay, 24-hour accident protection, and emergency medical transportation. If you purchase the insurance when making final payment for the tour, and cover all non-refundable parts of the trip (including any non-refundable flights), pre-existing conditions are covered. The CSA brochure includes a contact number; you may also purchase your CSA policy on-line by visiting our website at www.fieldguides.com/travelinsurance.htm and clicking the link to CSA. Please note, once the insurance is purchased it is non-refundable, so please check with your tour manager prior to making the purchase to assure the tour will operate as scheduled. Citizens of other countries are urged to consult their insurance broker.

RESPONSIBILITY: For and in consideration of the opportunity to participate in the tour, each tour participant and each parent or legal guardian of a tour participant who is under 18 agrees to release, indemnify, and hold harmless Field Guides Incorporated, its agents, servants, employees, shareholders, officers, directors, attorneys, and contractors as more fully set forth in the Release and Indemnity Agreement on the reverse side of the registration form. Field Guides Incorporated acts only as an agent for the passenger in regard to travel, whether by railroad, motorcar, motorcoach, boat, airplane, or other means, and assumes no liability for injury, damage, loss, accident, delay, or irregularity caused by defect in such vehicles or for any reason whatsoever, including the acts, defaults, or bankruptcies of any company or person engaged in conveying the passenger or in carrying out the arrangements of the tour. Field Guides Incorporated accepts no responsibility for losses or additional expenses due to delay or changes in air or other services, sickness, weather, strike, war, quarantine, or other causes. The tour participant shall bear all such losses and expenses. Field Guides Incorporated reserves the right to substitute hotels of similar category for those indicated and to make any changes in the itinerary where deemed necessary or caused by changes in air schedules. Field Guides Incorporated reserves the right to decline to accept or to retain any person as a member of any tour. Baggage is at owner's risk entirely.

Participants should be in good health and should consult a physician before undertaking a tour. If you have questions about the physical requirements of a tour, please contact our office for further information. Participants should prepare for the tour by reading the detailed itinerary, the information bulletin, and other pertinent matter provided by Field Guides. Each participant is responsible for bringing appropriate clothing and equipment as recommended in our bulletins.

THE RECEIPT OF YOUR TOUR DEPOSIT SHALL BE DEEMED TO BE CONSENT TO THE ABOVE CONDITIONS. EACH TOUR PARTICIPANT AND EACH PARENT OR LEGAL GUARDIAN OF A TOUR PARTICIPANT WHO IS UNDER 18 SHALL SIGN AND DELIVER THE RELEASE AND INDEMNITY AGREEMENT AT THE TIME OF REGISTRATION.
