

ITINERARY  
**COLORADO GROUSE**  
*April 9 – 20, 2027*

*One of our primary goals on this tour is to observe lekking grouse in action, so we will be out and in the field before dawn on many days. We'll hope to catch some activity such as this male Greater Sage-Grouse in display. Photograph by guide Micah Riegner.*

*We include here information for those interested in the 2027 Field Guides Colorado Grouse tour:*

- a general introduction to the tour
- a description of the birding areas to be visited on the tour
- an abbreviated daily itinerary with some indication of the nature of each day's birding outings

*These additional materials will be made available to those who register for the tour:*

- an annotated list of the birds recorded on a previous year's Field Guides trip to the area, with comments by guide(s) on notable species or sightings (may be downloaded from our web site)
- a detailed information bulletin with important logistical information and answers to questions regarding accommodations, air arrangements, clothing, currency, customs and immigration, documents, health precautions, and personal items
- a Field Guides checklist for preparing for and keeping track of the birds we see on the tour
- after the conclusion of the tour, a list of birds seen on the tour

**T**here is no better place in North America for gallinaceous birds than the state of Colorado—and no better time of year to find them than in April. Our goal on this tour is to seek out the prairie-chickens (Lesser and Greater) of the eastern plains, the Sharp-tailed Grouse and two sage-grouse (Gunnison and Greater) of the intermountain parks, and the sometimes-difficult Dusky Grouse of the mountains and ridges. Sprinkled in there could be Wild Turkey, Scaled and Gambel's quail, Ring-necked Pheasant, and the harder-to-find Northern Bobwhite. Weather permitting, we'll also make an attempt to find the difficult White-tailed Ptarmigan, resident in high-elevation areas above treeline.

This trip might best be described as a "compare and contrast" tour. That is to say, we'll be visiting distinctly different North American biomes, making it possible to encounter several closely related pairs or trios of birds in Colorado and

adjacent states. Some of these are East-West differences, but others are more complicated: Gunnison vs. Greater sage-grouse; Lesser vs. Greater prairie-chickens; Say's vs. Eastern phoebes; Eastern, Mountain, and Western bluebirds; Clark's vs. Western grebes—and the list goes on.

In addition, we'll take the opportunity to compare and contrast the birds of the various regions of the state: the Rockies, the eastern plains, and the intermountain basins (those broad valleys known as "parks"). But most importantly, we'll see Colorado grouse and prairie-chickens in their elaborate, boisterous, and colorful breeding displays, usually on "leks". We often see more than 140 bird species and 20 species of mammals by the end of the tour, and should have a better understanding of Colorado's birds and wildlife, mountains, and plains. Join us on this wonderful, action-packed tour in search of Colorado's grouse.

*Weather can be a significant part of this tour, and you should be prepared for a wide range of conditions. Here, a group is looking for White-tailed Ptarmigan at Loveland Pass. Photograph by participant Suzi Cole.*

*We want to be sure you are on the right tour! Below is a description of the physical requirements of the tour. If you are concerned about the difficulty, please contact us about this and be sure to fully explain your concerns. We want to make sure you have a wonderful time with us, so if you are uncomfortable with the requirements, just let us know and we can help you find a better fitting tour. Field Guides will not charge you a change or cancellation fee if you opt out within 10 days of depositing.*

### Physical requirements of this tour

- **TRAILS:** Although much of our birding will be at leks or along roadsides, we may take a couple hikes (of up to a mile or more). There is a chance that we may encounter snow in the mountain passes, so you should expect to hike through some snow.
- **POTENTIAL CHALLENGES:** We will be changing hotels almost every night, so be prepared to unpack and repack your luggage daily. Also, we will cover large distances each day, so expect to spend a significant amount of time in the vans.
- **PACE:** Because this tour covers more than 2000 miles (over 200 miles per day), the pace will be fairly brisk. On most mornings, we will be up very early, sometimes before 5:00 a.m., in order to get to leks pre-dawn. This tour is not a good fit for participants who require a lot of sleep.
- **ELEVATION:** We will be traveling over six mountain passes ranging from 8,000 to 12,000 feet in elevation. The highest elevation where we will spend a night is in Walden, at 8,099 feet. Anyone with significant heart or respiratory problems, or difficulty in walking/hiking should consult the Field Guides office before signing up for the tour, as shortness of breath and fatigue are common issues to consider at elevation.

- **WEATHER:** The weather is incredibly variable in Colorado in April, so it's prudent to be prepared for temperatures between 10° and 80° F (seriously!). Because it can shift from warm to cold quickly based on fast-moving storms or elevation changes, please plan to dress in layers and bring cold weather gear to stay warm and dry in potentially deep snow and very cold temperatures.
- **VEHICLE SEATING:** So that each participant has equal opportunity during our travel, we employ a seat rotation system on all tours. Participants will need to be flexible enough to maneuver to the back of the vehicle on occasion. Those who experience motion sickness will need to bring adequate medication for the duration of the tour, as we are not able to reserve forward seats for medical conditions.
- **BATHROOM BREAKS:** We will plan to make regular breaks every 2-3 hours, and most stops will have indoor restrooms; however, in remote areas or before our early morning lek visits, it will be necessary to make comfort stops in nature.
- **OPTING OUT:** As we are not staying in the same location each night, participants will not be able to opt to sit out for a day or half-day.

If you are uncertain about whether this tour is a good match for your abilities, please don't hesitate to contact our office staff; if they cannot directly answer your queries, they will put you in touch with one of the guides.

## About the Birding Areas

**Colorado** is one of the great birding states of the American West and the best place for gallinaceous birds in North America, particularly in April. But there are many other species of birdlife and wildlife to observe as well at this time of year, and we'll be seeing them against a stunning landscape.

**Eastern Plains**—Spring bird migration will be starting up and most apparent on the eastern plains of Colorado and western Kansas, an area that includes the riparian foothill country of the Pueblo area, the vast riparian habitat of the lower Arkansas River, numerous reservoirs, and the short-grass prairie habitat of the Pawnee Grasslands. We'll visit leks of both Lesser and Greater prairie-chickens to observe their elaborate displays as the sun rises over the plains. Other birds we'll hope to see in this section of Colorado and Kansas include Western and Clark's grebes, Scaled Quail,

Mountain Plover, Burrowing Owl, Ferruginous Hawk, Sage Thrasher, Curve-billed Thrasher, Canyon Towhee, and Loggerhead Shrike.

**Foothills, Mountains, and Intermountain Parks**—The foothills of the Front Range are often thawed out for our trip, but there might still be plenty of snow in the mountains. Regardless of the weather conditions, the scenery will be spectacular and the birding exciting. Weather permitting, we'll visit Loveland Pass in search of the elusive White-tailed Ptarmigan. In addition, we will stop in the mountains and foothills to search for scarce Dusky Grouse and other mountain specialties. In the intermountain parks, we'll visit Greater and Gunnison sage-grouse as well as Sharp-tailed Grouse displaying on their respective leks, plus a variety of other birds, hopefully including Rough-legged Hawk, Golden Eagle, and Swainson's Hawk. Our travels will take us over the Front Range and to the birding hotspots of the area such as Yampa and Gunnison basins and North, Middle, and South parks.

**Colorado Plateau: Plateaus, Mesas, and Valleys**—The western portion of the state is the most dramatic and colorful section of Colorado. Our birding travels will take us to reservoirs and canyons such as Black Canyon of the Gunnison National Park and Colorado National Monument. We pass alongside the great rivers of western Colorado, including the Uncompahgre, Gunnison, and Colorado, enjoying panoramic views of western Colorado's most spectacular landscape features—the San Juan Mountains, Uncompahgre Plateau, and the granddaddy of them all, the Grand Mesa. Birdlife here is wonderfully diverse, with all three species of rosy-finches in the higher elevations and Gambel's Quail, Rock and Canyon wrens, Pinyon Jay, Juniper Titmouse, and Black-throated, Brewer's, and Sagebrush sparrows in the lower elevations.

*Lesser Prairie-Chicken is becoming more difficult to find as their habitat is disappearing. We have access to a lek in Kansas where we can observe these threatened birds as the males display and battle for the right to mate.*

*Photograph by guide Cory Gregory.*

## Itinerary for Colorado Grouse

**Day 1, Fri, Apr 9. Arrival in Denver.** Plan to arrive in Denver before our 7 p.m. meetup this evening. Upon arrival, exit the west side of the airport through door 512, walk to "Island 3" and look for the red sign for the Holiday Inn Express. A white shuttle will come by every 30 minutes. You can call the Holiday Inn Express Denver Airport at (303) 373-4100 for assistance. We'll gather in the lobby at 7 p.m. for a brief meetup before heading for dinner at a nearby restaurant. If you don't arrive before our meetup time, check at the front desk for a message from your guide(s). Night in Denver.

**Day 2, Sat, Apr 10. Denver to Pueblo.** We will meet at the hotel lobby for breakfast at 5:45 a.m. We'll load up bags at 6:15 a.m. and depart for a full day of birding. If there are any recent sightings of Dusky Grouse in the Denver/Boulder area, we will make an attempt to see one, which may involve hiking for over a miles. Other targets of the morning could include American Three-toed Woodpecker, and Northern Pygmy-Owl. After lunch we'll begin our journey south towards Pueblo, stopping for Mountain Plovers along the way. Night in Pueblo.

**Day 3, Sun, Apr 11. Pueblo to Kansas plains.** Our travels today will take us in an easterly direction (roughly following the Arkansas River) as we position ourselves to visit lekking Lesser Prairie-Chickens tomorrow morning. This imperiled species is declining rapidly and is no longer reliable at accessible leks in Colorado. En route, we will stop at several reservoirs, riparian woodlots, and feedlots. Birds we'll be looking out for include Clark's Grebe, Cinnamon Teal, Franklin's Gull, American White Pelican, Burrowing Owl, Scaled Quail, Wild Turkey, Loggerhead Shrike, Eastern and Say's phoebes, Sage and Curve-billed thrashers, Swainson's and Ferruginous hawks, and Yellow-headed Blackbird. By the end of the day, our checklists should be brimming with ducks, grebes, raptors, shorebirds, sparrows, and blackbirds. We will cross from Mountain Time to Central Time today. Night in Scott City, Kansas.

**Day 4, Mon, Apr 12. Eastern Plains to Wray.** This is the day we've all been anticipating, our first experience at a lek. The rare Lesser Prairie-Chicken will be displaying as the sun rises. We'll need to be out very early to increase our chances for success. After (we hope) the excitement of seeing the prairie-chickens, we'll enjoy a hearty breakfast and

then work our way northward and westward to Wray, Colorado. En route, we'll keep eyes peeled for Rough-legged and Swainson's hawks, Long-billed Curlew, and Eastern and Mountain bluebirds. We will cross from Central Time to Mountain Time today, gaining back the hour we lost yesterday. Night in Wray, Colorado.

**Day 5, Tue, Apr 13. Wray to Golden.** We'll be up early today to observe the second of the three members of genus *Tympanuchus*—the Greater Prairie-Chicken. After breakfast, we'll head northwestward, skirting the shortgrass prairie habitat of the Pawnee Grasslands as we target prairie specialists like Thick-billed Longspur and Mountain Plover. We will look out, too, for the harder-to-find Chestnut-collared Longspurs, Long-billed Curlew, and Prairie Falcon. Time permitting, we may also check a few reservoirs for dabbling ducks and shorebirds. Night in Golden, Colorado (on the west side of Denver).

**Day 6, Wed, Apr 14. Golden to Montrose.** Today, we'll start early and head from the foothills of the Front Range into the mountains themselves. Weather and road conditions permitting, we should be able to traverse Loveland Pass where the elusive White-tailed Ptarmigan can be found. Stops at some high-elevation feeders might produce Brown-capped and possibly two more rosy-finches, as well as other finches. We'll gradually work our way in a southwesterly direction through basin/range topography to Montrose, crossing the Continental Divide several times. It's largely a travel day, but we will stop periodically to stretch our legs and search for local color such as Golden Eagle, Pine Grosbeak, Mountain Bluebird, Cassin's Finch, Steller's Jay, Gray-headed (Dark-eyed) Junco, and possibly American Three-toed Woodpecker. Night in Montrose, Colorado.

*While the main focus of this tour is viewing grouse, we'll also have time to seek out other special birds such as the Brown-capped Rosy-Finch. These high-elevation breeders are near-endemics to Colorado.*

*Photograph by guide Alex Sundvall.*

**Day 7, Thu, Apr 15. Montrose area.** Our goal this morning is the rare Gunnison Sage-Grouse displaying on its lek. Afterwards, we will climb in elevation in search of American Dipper, Brown-capped Rosy-Finch (and its more elusive cousins, Black and Gray-crowned), Evening Grosbeaks, Cassin's Finches, juncos, and mammals. An afternoon visit to the Black Canyon of the Gunnison National Park is a possibility. Night in Montrose, Colorado.

**Day 8, Fri, Apr 16. Montrose to Grand Junction.** Our day will begin with a visit to the spectacular Black Canyon of the Gunnison National Park, where Dusky Grouse can be seen as they perform their nearly inaudible (to us), deep booming song. Other possibilities at this unheralded gem of a national park are the "Slate-colored" subspecies of Fox Sparrow, White-throated Swift, Mountain Bluebird, Townsend's Solitaire, and Spotted Towhee. Lower elevations here hold Pinyon

Jay and Juniper Titmouse. After a morning of birding, we'll head northwestward, making concerted efforts to find Sagebrush and Brewer's sparrows on the Utah border. Other stops may find us Lewis's Woodpecker (scarce) and waterbirds on several reservoirs along the way. Night in Grand Junction, Colorado.

*This tour is very good for raptors, and we'll be sure to keep our eyes on the skies as we drive so that we do not miss sights such as this immature Golden Eagle. Fifteen species of hawks, eagles, falcons, and vultures are possible! Photograph by guide Eric Hynes.*

**Day 9, Sat, Apr 17. Grand Junction to Craig.** This morning, we'll leave at daybreak for Colorado National Monument where we'll spend a morning enjoying some of the most spectacular scenery of the tour. The incredible Monument Valley overlook provides awe-inspiring views of the impressive geologic formations of Wingate sandstone cloaked in juniper and pinyon pine woodland. Although this will likely be a "grouseless" day, we will nevertheless see some fine birds. Possibilities here include Gambel's Quail, Golden Eagle, Peregrine Falcon, Rock, Canyon, and Bewick's wrens, Juniper Titmouse, Bushtit, Woodhouse's Scrub-Jay, Pinyon Jay, and Black-throated Sparrow. After lunch, we'll travel north to the town of Craig, watching for Sandhill Cranes and Prairie Falcons along the way. Night in Craig, Colorado.

**Day 10, Sun, Apr 18. Craig to Walden.** Our early morning outing will take us to a private ranch where we hope to see strutting Sharp-tailed Grouse. These hills and valleys are also home to Swainson's Hawk, Red-naped Sapsucker, Vesper Sparrow, and Sandhill Crane. After our morning outing, we'll head eastward toward our hotel in Walden, traversing Rabbit Ears Pass en route. The North Park area affords our best chance to see a Moose in Colorado. If thawed, Walden Reservoir often hosts the most impressive diversity of waterbirds of the whole tour. Weather permitting, we will make an attempt to see Boreal Owl outside of Walden this night with the aim to be back at the hotel by 11 pm. Night in Walden, Colorado.

**Day 11, Mon, Apr 19. Walden to Denver.** Our grand finale this morning will be a visit to a lek of displaying Greater Sage-Grouse. After brunch, we'll head back to Denver making several birding stops en route, looking for anything we may have missed along the way. We'll conclude our grand Colorado Grouse tour with a farewell dinner tonight. Night in Denver, Colorado.

**Day 12, Tue, Apr 20. Depart Denver.** You may plan your departure from Denver for any time today. Have a safe trip home!

## About Your Guides

**Micah Riegner** grew up exploring the Central Arizona Highlands and was fortunate to have parents who took him along on college field courses ranging from the coast of Mexico to the mountains of Costa Rica, where encounters with tinamous, barbets, and jacamars launched him into the birding world at a young age. During his time at Prescott College, he made annual pilgrimages to Amazonia, where he worked as a guide and participated in expeditions, mostly in Brazil. For his master's he studied the foraging ecology of Amazonian woodcreepers. When he's not in the field, he tries to make time to paint birds and other creatures that spark his interest.

Micah is a generous guide with an easy laugh and is eager to share his love of birds and nature in the years to come. We know you will have a great time traveling with him, too!

*"Kudos to **Micah Riegner**, who was an excellent guide. He has a calm demeanor and seemed unflappable. He was patient with all of us birders and always made sure everyone got on the bird. His enthusiasm was contagious."*  
G.H. *Arizona's Second Spring*

**Alex Sundvall** is a proud Minnesota native and has truly loved birds all his life. At the young age of five, he took a field trip with his kindergarten class to their local Nature Center and learned all about birds. At the end of the trip, the class got to watch staff release a Dark-eyed Junco they had been rehabilitating, and from that moment he was hooked! With the help of his very supportive and encouraging parents, he learned everything he could about birds and birding. Even as a child, whenever anyone asked him what he wanted to be when he grew up, he would always reply: "I'm going to be an ornithologist!"

This love of birds and nature has followed him throughout his life. He graduated from the University of Minnesota's College of Food, Agriculture, and Natural Resource Sciences with a degree in Fisheries, Wildlife, and Conservation Biology with a double minor in Forest Ecosystem Management and Conservation; and Environmental Sciences, Policy, and Management. In 2016, Alex received the Young Birder Award from the Minnesota Ornithologists Union, and he has served as an alternate on his State's Bird Records Committee.

Growing up in Minnesota, Alex developed a passion for studying bird migration. In the past he has worked as both a Counter and Count Interpreter at Hawk Ridge Bird Observatory in Duluth, MN. Even now, in his free time he'll often drive somewhere, post up for the day, and just count migrating birds as they pass by.

In recent years, Alex has led numerous tours across the US and beyond -- from the deserts and sky islands of the Southwest to the hallowed shores of Attu, Alaska, and everything in between. He loves teaching people about birds and showing them all that nature has to offer!

*"**Alex** was so delightful and kind. He was thoughtful and charming to everyone! He is smart AND accomplished; Field Guides is lucky to have him." J.M., Texas's Big Bend & Hill Country*

## Financial Information

**FEE:** \$5275 from Denver

**SINGLE SUPPLEMENT (Optional):** \$1025

**DEPOSIT:** \$525 per person

**FINAL PAYMENT DUE:** October 11, 2026

**LIMIT:** 14

## Other Things You Need to Know

**TOUR MANAGER:** The manager for this tour is Caroline Lewis. Caroline will be happy to assist you in preparing for the tour. If you have any questions, please don't hesitate to call her!

**ACCOMMODATIONS:** Accommodations are in comfortable hotels, typically in familiar chains such as Holiday Inn Express, Best Western Plus, and Cobblestone Inn. In Walden, we stay at the family-owned North Park Inn & Suites.

**AIR ARRANGEMENTS:** Please note that the tour begins and ends in Denver, CO; Denver International Airport, DEN.

**Arrival:** Denver, before 7 p.m. on April 9. The group will meet in the hotel lobby at 7:00 p.m. to go to dinner.

**Departure:** Denver, any time on April 20.

Please wait to purchase airline tickets until we notify you that the tour is confirmed to operate. At that time, we'll be glad to assist with your flight arrangements at no service fee.

**LUGGAGE:** Please be aware that many airlines charge additional fees for checked bags. Updates could easily occur before your departure, so you may wish to contact your airline to verify their policy. Additional charges for bags on any flights, whether these are covered by the tour fee or not, will be the client's responsibility.

**SMOKING:** Almost all of our clients prefer a smoke-free environment. If you smoke, please be sensitive to the group and refrain from smoking at meals, in vehicles, and in proximity to the group on trails and elsewhere.

**TOUR INCLUSIONS/EXCLUSIONS:** The tour fee is \$5275 for one person in double occupancy from Denver.

It includes all lodging from Day 1 through Day 11, all meals from dinner on Day 1 through breakfast on Day 12, all ground transportation, entrance fees, and the guide services of the tour leader(s). Tipping at group meals and for local guides is included in your tour fee and will be handled for the group by your Field Guides leader(s). However, if you would like to recognize your Field Guides leader(s) or any local guide(s) for exceptional service, it is entirely appropriate to tip. We emphasize that such tips are optional and not expected.

**The above fee does not include** your airfare to and from Denver, airport taxes, any checked or carry-on baggage charges imposed by the airlines, any alcoholic beverages, optional tips to local guides, phone calls, laundry, or other items of a personal nature.

**The single supplement for the tour is \$1025 for those requesting a single room.** If you do not have a roommate but wish to share, we will try to pair you with a roommate from the tour; but if none is available, you will be billed for the single supplement. Our tour fees are based on double occupancy; one-half the cost of a double room is priced into the tour fee. The single supplement is calculated by taking the actual cost of a single room and subtracting one-half the cost of a double room (plus any applicable taxes).

**TOUR REGISTRATION:** To register for this tour, please contact us at [fieldguides.com/contact-us/](https://fieldguides.com/contact-us/). Our office will be in touch with you by email by the next business day (Mon-Fri) with instructions on how to complete our electronic registration form and medical questionnaire. (We are no longer accepting the paper version.)

**Please send your deposit of \$525 per person; see <https://fieldguides.com/payment-options/> for our Payment Options.** Full payment of the tour fee is due 180 days prior to departure, or by October 11, 2026. We will bill you for the final payment at either 180 days or when the tour has reached sufficient subscription to operate, whichever date comes later.

Since the cost of your trip insurance and airline tickets is generally non-refundable, please do not finalize these purchases until you have received final billing for the tour or have been advised that the tour is sufficiently subscribed to operate by your tour manager.

**CANCELLATION POLICY:** Refund of deposit and full payment, less \$100 handling fee, will be made if cancellation is received up to 180 days before departure. If cancellation occurs between 179 and 90 days before the departure date, 50% of the full tour fee is non-refundable, which would include the full deposit if the final payment has not yet been paid. Thereafter, all deposits and payments are not refundable and non-transferable.

Our cancellation policy only applies to payments made to Field Guides for tour (and any services included in those fees). Airline tickets not included in the tour fee and purchased separately often carry penalties for cancellation or change, or are sometimes totally non-refundable. Additionally, if you take out trip insurance the cost of that insurance is not refundable, so it is best to purchase the policy just prior to making full payment for the tour or at the time you purchase airline tickets, depending upon the airline's restrictions.

The right is reserved to cancel any tour prior to departure. In most such cases, full refund will constitute full settlement to the passenger. Note this exception, however: If you have been advised pre-tour that there is a non-refundable portion of your tour fee no matter the reason for Field Guides cancellation of the tour, that portion will not be refunded. The right is reserved to substitute in case of emergency another guide for the original one.

**TRIP CANCELLATION & MEDICAL EMERGENCY INSURANCE:** We strongly recommend purchasing trip cancellation (including medical emergency) insurance to protect your investment in case of injury or illness to you or an immediate family member before or during a trip. Because we must remit early and substantial deposits to our suppliers, we cannot offer refunds for cancellations outside of our Cancellation Policy. If a participant is unable to join or continue a tour due to illness, all related expenses will be their responsibility, and no refunds can be issued for missed days. Please wait to purchase insurance until we notify you that the tour is confirmed to operate, as most policies are non-refundable.

For full details, visit our Trip Cancellation Insurance page at <https://fieldguides.com/trip-cancellation-insurance/>.

**RESPONSIBILITY:** For and in consideration of the opportunity to participate in the tour, each tour participant and each parent or legal guardian of a tour participant who is under 18 agrees to release, indemnify, and hold harmless Field Guides Incorporated, its agents, servants, employees, shareholders, officers, directors, attorneys, and contractors as more fully set forth in the Release and Indemnity Agreement on the registration form. Field Guides Incorporated acts only as an agent for the passenger in regard to travel, whether by railroad, motorcar, motorcoach, boat, airplane, or other means, and assumes no liability for injury, damage, loss, accident, delay, or irregularity caused by defect in such vehicles or for any reason whatsoever, including the acts, defaults, or bankruptcies of any company or person engaged in conveying the passenger or in carrying out the arrangements of the tour. You acknowledge and agree that Field Guides Incorporated is not responsible for losses or additional expenses due to delay or changes in air or other services, sickness, weather, strike, war, quarantine, or other causes. The tour participant shall bear all such losses and expenses. Field Guides Incorporated reserves the right to substitute hotels of similar category for those indicated and to make any changes in the itinerary where deemed necessary or caused by changes in air schedules. Field Guides Incorporated reserves the right to decline to accept or to retain any person as a member of any tour. Baggage is at owner's risk entirely.

Participants should be in good health and should consult a physician before undertaking a tour. If you have questions about the physical requirements of a tour, please contact our office for further information. Participants should prepare for the tour by reading the detailed itinerary, the information bulletin, and other pertinent matter provided by Field Guides. Each participant is responsible for bringing appropriate clothing and equipment as recommended in our bulletins.

THE RECEIPT OF YOUR TOUR DEPOSIT SHALL BE DEEMED TO BE CONSENT TO THE ABOVE CONDITIONS. EACH TOUR PARTICIPANT AND EACH PARENT OR LEGAL GUARDIAN OF A TOUR PARTICIPANT WHO IS UNDER 18 SHALL SIGN AND DELIVER THE RELEASE AND INDEMNITY AGREEMENT AT THE TIME OF REGISTRATION.
