

ITINERARY
Mexico: Enchanted Chiapas
March 5-14, 2027

The lovely Blue-throated Motmot has a small range in the highlands from southern Mexico to El Salvador. This is one of five motmot species we may see on this tour. Photograph by guide Micah Riegner

We include here information for those interested in the 2027 Field Guides Chiapas tour:

- a general introduction to the tour
- a description of the birding areas to be visited on the tour
- an abbreviated daily itinerary with some indication of the nature of each day's birding outings

These additional materials will be made available to those who register for the tour:

- an annotated list of the birds recorded on a previous year's Field Guides trip to the area, with comments by guide(s) on notable species or sightings (may be downloaded from our web site)
- a detailed information bulletin with important logistical information and answers to questions regarding accommodations, air arrangements, clothing, currency, customs and immigration, documents, health precautions, and personal items
- a Field Guides checklist for preparing for and keeping track of the birds we see on the tour
- after the conclusion of the tour, a list of birds seen on the tour

For this tour, we head all the way south to Chiapas. With its colossal mangroves, coastal savannahs, tropical dry forests and orchid-filled cloud forests, Chiapas is home to a dazzling array of birds. Biogeographically, Chiapas is set apart from the rest of Mexico thanks to the Isthmus of Tehuantepec, the low, narrow strip of land that acts as a barrier to montane species. This isolation has set the stage for the evolution of a unique suite of birds found only in Chiapas and neighboring Guatemala—birds like Pink-headed Warbler, Bearded Screech-owl and Blue-throated Motmot. We'll seek these specialties in the highlands, and bird the lowlands for Rosita's Bunting, Belted Flycatcher, Bar-winged Oriole, Giant Wren and White-bellied Chachalaca.

Our journey begins in Tuxtla Gutierrez, the bustling capital of Chiapas with 600,000 inhabitants, and from there, we'll escape to the tranquility of Reserva el Ocote. Located just 40 minutes from Tuxtla Gutierrez, Reserva el Ocote is *the*

most biodiverse reserve in all of Mexico, with over 500 birds recorded within its boundaries. Here lives the endemic Nava's Wren, an elusive songster of limestone outcroppings. Hearing its loud, rich song is easy... getting to see it as it mouses its way through the cracks in the rock is a bit trickier, but we'll try our best! Slate-colored Solitaires, Band-back Wrens, Black-headed Saltators, Buff-throated Foliage-gleaners and Tawny-winged Woodcreepers add to the dawn chorus here at El Ocote. It's also a good place to see Wedge-tailed Sabrewing (formerly Long-tailed Sabrewing). After a morning at El Ocote, we head to colonial city of San Cristobal de las Casas. When we're not sipping hot chocolate or walking the narrow cobblestone streets downtown, we'll seek Pink-headed Warbler, Blue-throated Motmot, Blue-and-white Mockingbird, Wine-throated Hummingbird, and the White-breasted form of Sharp-shinned Hawk in the conifer forests above. In the evening, we'll try for both Bearded Screech-Owl and Unspotted Saw-whet Owl, two rarities which favor lush, bromeliad-laden pine forest slopes.

Then, it's down to Cañon del Sumidero, a truly mind-boggling kilometer-deep gorge carved by the Rio Grijalva. We'll take in the views from various viewpoints and search for Belted Flycatcher, Red-breasted Chat and Fan-tailed Warbler in the dense bamboo thickets along the road. Continuing down in elevation we reach the Pacific lowlands above the town of Arriaga to look for Rose-bellied Bunting, Cinnamon-tailed Sparrow, Great Swallow-tailed Swift, White-lored Gnatcatcher, Long-tailed Manakin and Green-fronted Hummingbird, and after that, we'll drive to Mapastepec to canoe through the mangrove forests of Centro Ecoturistico Costa Verde in search of Giant Wren, White-bellied Chachalaca, Northern Potoo, Agami Heron, and Yellow-naped Parrot. In the foothills above Mapastepec, we'll look for Tody Motmot, White-faced and Gray-crowned Ground-sparrows, Rufous-and-white Wren and King Vulture.

This tour gives us a chance to see the Mexican endemic Rose-bellied Bunting, found only in Chiapas and neighboring Oaxaca. Photograph by guide Jorge Montejo-Diaz.

Our tour ends in the cloud forests of Volcan Tacana. At 13,320 feet, Tacana is the second highest peak in Central America. Here, we'll be based out of a lodge in the picturesque village of Union Juarez at about 4,200 feet (it's like a piece of Switzerland in the cloud forest!) and we'll bird the hummingbird-filled slopes of the volcano. Some of the species we'll look for here include Green-throated Mountain-gem, Sparkling-tailed Hummingbird, Slender Sheartail, Blue-crowned Chlorophonia, Azure-rumped Tanager, Highland Guan and Hooded Grosbeak. If you've been with us to Oaxaca or the Yucatan and are craving another dose of Mexican birds (and food and culture!), then put on your hiking boots and let's head for the forest! We're looking for an enthusiastic group of birders for this truly immersive adventure—*vamonos*, let's make it happen!

We want to be sure you are on the right tour! Below is a description of the physical requirements of the tour. If you are concerned about the difficulty, please contact us about this and be sure to fully explain your concerns. We want to make sure you have a wonderful time with us, so if you are uncomfortable with the requirements, just let us know and we can help you find a better fitting tour! Field Guides will not charge you a change or cancellation fee if you opt out within 10 days of depositing.

Physical requirements of this tour

- **TRAILS & WALKING:** Moderate amounts of walking (1-3 mornings and afternoons), mostly on roads or packed dirt trails. Some instances we will need to hike up some very steep, and possibly slippery roads and side trails with loose rocks and gravel, so hiking sticks could come in handy. Participants should be able to spend long hours on their feet. A folding stool would be handy, especially for the picnic breakfasts.
- **POTENTIAL CHALLENGES:** At Centro Ecoturístico Costa Verde, we will be spending a full morning (3 hours) of birding from canoes along the mangrove channels—bathroom breaks will be difficult, if not impossible, from the canoes.
- **PACE:** Early starts (5:00 a.m. breakfasts some days) followed by birding until lunch. In the afternoons, we will bird or take in cultural attractions such as local markets. On most days, we will be away from the hotel for the entire day. There will be several optional nighttime excursions to look for owls and other night things. For these we will aim to return to the hotel by 10:30 p.m.
- **WEATHER:** Temperatures range from the low 40s in the early morning in the higher elevations of mountains to the mid-90s F in the lower elevations with high humidity, so be prepared for a range of weather conditions. While springtime is considered the dry season in this part of Mexico, we might still encounter afternoon showers, especially up at Volcan Tacana.
- **ELEVATION:** Anywhere from sea level to 8,000 feet, where it can be quite chilly.
- **VEHICLE SEATING:** So that each participant has equal opportunity during our travel, we employ a seat rotation system on all tours. Participants will need to be flexible enough to maneuver to the back of the vehicle on occasion. Those who experience motion sickness will need to bring adequate medication for the duration of the tour, as we are not able to reserve forward seats for medical conditions.
- **BATHROOM BREAKS:** Whenever possible, we use modern, indoor restrooms, but on most days, participants must be prepared to make a comfort stop in nature.
- **OPTING OUT:** We will be on the go for much of the tour moving from town to town, so there will be few opportunities to opt out.

If you are uncertain about whether this tour is a good match for your abilities, please don't hesitate to contact our office; if they cannot directly answer your queries, they will put you in touch with the guide for the tour.

*This tour may be combined with its perfect complement, our **MEXICO'S EL TRIUNFO: HORNED GUANS AND QUETZALS** tour, February 26 – March 5, 2027.*

About the Birding Areas

The beautiful city of **San Cristobal de las Casas** sits in a valley surrounded by pine forest at 7,200 feet. The city features picturesque cobblestone streets and colonial architecture, with vendors selling colorful handicrafts ranging from textiles to products made from amber. San Cristobal used to be the capital of Chiapas, before it was moved to Tuxtla Gutierrez, however San Cristobal continues to be the cultural center of the state.

Reserva Montetik is a community reserve just outside San Cristobal. The humid pine forest slopes are home to the snazzy Pink-headed Warbler, Wine-throated and Garnet-throated Hummingbirds, Blue-and-white Mockingbird and Blue-throated Motmot. Even Scaled Antpitta can be found here! On clear nights, Bearded Screech-Owls and Unspotted Saw-whet Owls sing from these forest slopes.

Right outside Tuxtla Gutierrez is the spectacular **Cañon del Sumidero**, a 3,300-foot-deep gorge carved by the Rio Grijalva as it flows to join the Rio Usumacinta before reaching the Gulf of Mexico in the state of Tabasco. Sumidero Canyon began to form some 35 million years ago, which is about when the Grand Canyon began to form and its huge limestone walls contain marine fossils from the Mesozoic. Some of the birds that are possible along the road include Belted Flycatcher, Singing Quail, Red-breasted Chat and Fan-tailed Warbler at army ant swarms.

Reserva el Ocote is a 40-minute drive from Tuxtla Gutierrez. The reserve protects forest on karst (limestone) hills, home to the secretive Nava's Wren, only found in a little corner where Chiapas, Veracruz and Oaxaca meet. A staggering 500 bird species have been recorded in the reserve, making it the most bird-rich reserve in all of Mexico. Other birds in the reserve include Wedge-tailed Sabrewing, Slate-colored Solitaire, Golden-hooded Tanager, Green Shrike-vireo, and a myriad of other tropical species. The forest here acts as an important filter for the watershed that supplies water to the Mal Paso Reservoir.

Nava's Wren is a rare endemic found in a very small region of southern Mexico. We'll visit Reserva el Ocote to see this specialty. Photograph by guide Micah Riegner.

The town of **Arriaga** sits in the hot lowlands of the Pacific Coast, east of the Isthmus of Tehuantepec. It was the first option for the US to create a canal between the Atlantic and Pacific, before they settled for Panama. Arriaga is surrounded by coastal tropical deciduous forest, home to the range restricted Rose-bellied Bunting, Long-tailed Manakin, Russet-crowned Motmot, Great Swallow-tailed Swift, Orange-breasted Bunting, Citreoline Trogon, and Green-fronted Hummingbird. It is the contact zone between many species that replace each other east and west of the isthmus.

Centro Ecoturistico Costa Verde, in the heart of the Encrucijada Biosphere Reserve, near the town of **Mapastepec** is a birder's paradise. It is *the* place to see Giant Wren and White-bellied Chachalaca and the rare Yellow-naped Parrot. On a canoe trip through the mangrove forest, one can see the shy Agami Heron, Boat-billed Heron, Collared Forest Falcon, the five kingfishers of Mexico, Northern Potoo, Plumbeous and Gray-headed Kites, and the only Southern Lapwings known in Mexico, along with numerous other waterbirds. Lady of the Night Orchids (*Brassanova nodosa*) with their beautiful white flowers grow at eye level along the mangrove channels.

Union Juarez is a small village of just under 3,000 people at the base of the spectacular **Volcan Tacana**, which straddles the border of Mexico and Guatemala. Coffee is the main industry at Union Juarez and we will drive through several coffee plantations to reach the town. One can easily spend several days birding the road above Union Juarez, which zigzags up the lush cloud forest slopes of the volcano. Some of the birds here include Blue-tailed Hummingbird, Azure-rumped Tanager, Bar-winged Oriole, and Highland Guan.

The Chestnut-sided Shrike-Vireo is a near endemic of southern Mexico. We'll watch for this stunning bird in the forests on Volcan Tacana. Photograph by guide Micah Riegner.

Itinerary for Mexico: Enchanted Chiapas

Day 1, Fri, 5 Mar. Arrival in Tuxtla Gutiérrez. Please plan to arrive in Tuxtla Gutiérrez (TGZ) by 4:00 pm today. You will be met at the airport by a driver with a Field Guides sign and driven to the hotel, about 40 minutes away. We will meet at the hotel lobby at 5:30 pm to bird the hotel grounds for a bit, then we'll walk to a nearby restaurant for dinner at 6:30 pm. Night in Tuxtla Gutierrez.

Day 2, Sat, 6 Mar. Birding Reserva El Ocote; drive to San Cristobal. We will meet at the hotel lobby at 5:30 am and drive about 40 minutes to Reserva el Ocote where we will set up a picnic breakfast among the Green Shrike-vireos, Black-headed Saltators and Keel-billed Toucans. The primary target will be seeing the endemic Nava's Wren, which likes to hang out in limestone outcroppings. Slate-colored Solitaire, Wedge-tailed Sabrewing, and Buff-throated Foliage-gleaner can be seen along the road that goes through the park. After lunch back in Tuxtla, we'll drive our way up to San Cristobal and spend the afternoon at Parque Montetik. If the weather looks good, we'll do a night trip in search of Bearded Screech-Owl and Unspotted Saw-whet Owl. Night in San Cristobal.

Day 3, Sun, 7 Mar. Birding around San Cristobal. Another full day of birding around San Cristobal. We will revisit Reserva Montetik in the morning, looking for Pink-headed Warbler, Blue-and-white Mockingbird, Unicolored Jay, Strong-billed Woodcreeper, and the White-breasted Sharp-shinned Hawk. The road here is very steep so be prepared for that! After a well-deserved lunch, we'll spend the afternoon exploring around town. Night in San Cristobal.

Day 4, Mon, 8 Mar. Birding at Cañon del Sumidero; afternoon birding along road to Arriaga. We will be up early (bags out at 5:00 am!) to drive out of San Cristobal to Canyon del Sumidero, where we will spend a full morning stopping at the overlooks and searching for Belted Flycatcher, Red-breasted Chat, Varied Bunting, Slender Sheartail, Blue Seedeater, Plain-capped Starthroat, Bar-winged Oriole and Fan-tailed Warbler in the dense bamboo forest along the road. After lunch in Tuxtla, we will begin our drive to the Pacific Lowlands. Before reaching Arriaga, we will scan an overlook for Great Swallow-tailed Swift, which sometimes patrols the hillsides. We could also begin to see Rose-bellied Bunting, Cinnamon-tailed Sparrow, Banded Wren, Green-fronted Hummingbird, Russet-crowned Motmot and numerous other dry forest birds as we descend to Arriaga. Night in Arriaga.

Day 5, Tue, 9 Mar. Birding around Arriaga; drive to Mapastepec. Our morning efforts will be dedicated to finding Rose-bellied Bunting if we haven't seen it already. From the dry forest of Arriaga, we will continue along the coast to the town of Mapastepec. After settling in the hotel, we will spend the afternoon birding along the road south to Centro Ecoturistico Costa Verde searching for Giant Wren, Spot-breasted Oriole, and White-bellied Chachalaca. Night in Mapastepec.

Day 6, Wed, 10 Mar. Canoe trip at Centro Ecoturistico Costa Verde. Morning will find us in canoes exploring the vast mangrove forest of Centro Ecoturistico Costa Verde in search of Yellow-naped Parrots, Agami and Boat-billed Herons, American Pygmy Kingfishers, Northern Potoos and White-necked Puffbirds. Our bird list could easily surpass 100 species just a few hours on this canoe trip. We will return for lunch at Costa Verde and spend the afternoon birding along the main road. At night we'll try for Pacific Screech-owl. Night in Mapastepec.

Gray-crowned Ground-Sparrow was recently split from the very similar White-eared Ground-Sparrow. It has a limited range, from southern Mexico to western El Salvador, and we'll look for them in the foothills near Mapastepec. Photograph by participant Kirsten Tucker.

Day 7, Thu, 11 Mar. Birding above the town of Mapastepec; drive to Union Juarez. After an early breakfast we will depart Mapastepec and drive to the foothills of El Triunfo Reserve, where we'll spend the morning looking for Long-tailed Manakin, Rufous-and-white Wren, Turquoise-browed and Tody Motmots, White-faced and Gray-crowned Ground Sparrows and the newly described Chestnut-capped Warbler, a recent split from Rufous-capped Warbler. This is also one of the best areas of the tour for King Vulture. In order to reach the best habitat for these birds, we'll need to wade across a stream with ankle-deep water. Your options are to take your shoes off and wade across, just get your shoes wet, or you could bring sandals/water shoes along for the crossing. After lunch, we'll make our way to the town of Union Juarez on the flank of Volcan Tacana. Note that Hotel La Fazenda only has 6 rooms, so if we have a full group with many singles, we will need to divide the group into two hotels: Hotel La Fazenda and Casa Morayma. They both are nice hotels belonging to the same owner. We will be doing our breakfasts at La Fazenda. Night in Union Juarez.

Day 8, Fri, 12 Mar. Birding along the road to Chiquihuites, Volcan Tacana. The road to Union Juarez switchbacks up the volcano to the little community of Chiquihuites, another town that produces great coffee. This is a good stretch to see the range-restricted Azure-rumped Tanager among numerous other cloud forest specialties like Sparkling-tailed and Garnet-throated hummingbirds, Hooded Grosbeak, Black-capped Swallow and Scaly-throated Foliage-gleaner. Night in Union Juarez.

Day 9, Sat, 13 Mar. Birding upper limits of road to Chiquihuites; drive to Tapachula. We will bird the cloud forest around Chiquihuites where we might run into Ruddy Foliage-gleaner, Buffy-crowned Wood-Partridge, Cinnamon-bellied Flowerpiercer, and Gray Silky Flycatcher. After lunch, we will pack up and begin to make our journey down the mountain to the city of Tapachula where we will have our final birding around the hotel grounds before dinner. Night in Tapachula.

Day 10, Sun, 14 Mar. Flights out of Tapachula to the US via Mexico City. You may schedule your departure for any time today and we will arrange your transfer to the airport. Buen viaje!

About Your Guides

Micah Riegner grew up exploring the Central Arizona Highlands and was fortunate to have parents who took him along on college field courses ranging from the coast of Mexico to the mountains of Costa Rica, where encounters with tinamous, barbets, and jacamars launched him into the birding world at a young age. During his time at Prescott College, he made annual pilgrimages to Amazonia, where he worked as a guide and participated in expeditions, mostly in Brazil. For his master's he studied the foraging ecology of Amazonian woodcreepers. When he's not in the field, he tries to make time to paint birds and other creatures that spark his interest.

Micah guided tours with Bret Whitney, John Coons, Dan Lane, and Tom Johnson before joining Field Guides full time in 2019. Micah is a generous guide with an easy laugh and is eager to share his love of birds and nature in the years to come. We know you will have a great time traveling with him, too!

Micah scouted for this tour with Jorge and his partner Amy back in 2021. He is thrilled to be going back to this bird rich part of Mexico.

Jorge Montejó-Díaz was born in Yucatan, Mexico and developed a passion for nature from a very early age, exploring the surroundings of his native Merida, where he began to observe birds and learn how to trap them! His interest in birds and nature continued to grow during his college years in Veracruz, when Jorge and a group of friends "discovered" the great coastal migration in the state, now known as the Veracruz River of Raptors. Since the late 90's, Jorge has guided birding tours throughout Mexico.

His explorations have taken him across Mexico and to other parts of the world, including Venezuela, Brazil, and much of the US and Canada. Because of both the beauty and importance of birds, he considers the opportunity to watch them and share his passion with others a great honor, as well as a great responsibility. On the rare occasions when he is not in the field, Jorge shares his bird observations with his partner, Amy, from their base in the city of Xalapa, set in the foothills of central Veracruz.

"Micah is a real bird finder and a delightful guy. He obviously knows the country and the culture well. He provided us with some really great owling, too." P.B., Central Mexico & Baja: Birds, Butterflies & Whales 2022

"Jorge was absolutely indispensable by virtue of his local knowledge, negotiation ability, and birding acumen and his expertise in the design of this tour. The choices were excellent and his access to local landowners and conservation efforts made the trip more meaningful. Jorge was great!" M.H., Mexico: Veracruz's River of Raptors 2021

Visit <https://fieldguides.com/our-staff/> for complete tour schedules for Micah and Jorge; just click their photos.

Financial Information

FEE: \$4325 from Tuxtla Gutiérrez (Please note that the tour begins in Tuxtla Gutiérrez and ends in Tapachula.)

SINGLE SUPPLEMENT (Optional): \$425

DEPOSIT: \$425 per person

FINAL PAYMENT DUE: September 6, 2026

LIMIT: 10

Other Things You Need to Know

TOUR MANAGER: The tour manager for this tour is Ruth Kuhl. Ruth will be happy to assist you in preparing for the tour. If you have any questions, please don't hesitate to contact her!

DOCUMENTS: Be sure to verify the latest entry requirements for each country you will visit or transit.

Passport: A current passport is required for U.S. citizens to re-enter the United States. It should be in good condition, valid for at least 6 months beyond your return date, and have at least one blank page for each country on your itinerary.

If you are not a US citizen, please check with the Mexican consulate nearest you for entry requirements.

AIR ARRANGEMENTS: This tour begins in Tuxtla Gutiérrez (TGZ) and ends in Tapachula (TAP). Flights are available to Tuxtla Gutiérrez and back from Tapachula via Mexico City.

Arrival: Tuxtla Gutiérrez (TGZ), Friday, March 5, by 4:00 p.m.

Departure: Tapachula (TAP), Sunday, March 14, any time.

Please be sure to check with your tour manager before purchasing your ticket to make sure the flights you have chosen will work well with the tour itinerary and that the tour is sufficiently subscribed to operate.

LUGGAGE: Please be aware that many airlines have recently modified their luggage policies and are charging additional fees for checked bags. Updates could easily occur before your departure, so you may wish to contact your airline to verify the policy. Additional charges for bags on any flights, whether these are covered by the tour fee or not, will be the client's responsibility.

SMOKING: Almost all of our clients prefer a smoke-free environment. If you smoke, please be sensitive to the group and refrain from smoking at meals, in vehicles, and in proximity to the group on trails and elsewhere.

TOUR INCLUSIONS/EXCLUSIONS: The tour fee is \$4325 for one person in double occupancy from Tuxtla Gutiérrez. It includes all lodging from Day 1 through Day 9, all meals from dinner on Day 1 through breakfast on Day 10, all ground transportation including airport transfers, entrance fees, and the guide services of the tour leader(s). Tipping at group meals and for drivers, porters, and local guides is included in your tour fee and will be handled for the group by your Field Guides leader(s). However, if you would like to recognize your Field Guides leader(s) or any local guide(s) for exceptional service, it is entirely appropriate to tip. We emphasize that such tips are optional and not expected.

The above fee does **not** include your airfare to Tuxtla Gutiérrez and from Tapachula, airport taxes, any checked or carry-on baggage charges imposed by the airlines, any alcoholic beverages, optional tips to local drivers, phone calls, laundry, or other items of a personal nature.

The single supplement for the tour is \$425 for those requesting a single room. If you do not have a roommate but wish to share, we will try to pair you with a roommate from the tour; but if none is available, you will be billed for the single supplement. Our tour fees are based on double occupancy; one-half the cost of a double room is priced into the tour fee. The single supplement is calculated by taking the actual cost of a single room and subtracting one-half the cost of a double room (plus any applicable taxes).

TOUR LIMITS: Our limits are firm and we don't exceed the limit by one to accommodate a couple when only one space remains open. However, on occasion, we will send along a guide in training on a tour. In these cases, one seat in the van or bus will be taken by the guide in training. Our guides will have a rotation system within the vehicle so that clients share the inconvenience equally. We hope this minor inconvenience will be more than offset by the advantages of having another guide along.

TOUR REGISTRATION: To register for this tour, please contact us at fieldguides.com/contact-us/. Our office will be in touch with you by email by the next business day (Mon-Fri) with instructions on how to complete our electronic registration form and medical questionnaire. (We are no longer accepting the paper version.)

Please send your deposit of \$425 per person; see <https://fieldguides.com/payment-options/> for our Payment Options. Full payment of the tour fee is due 180 days prior to departure, or by September 6, 2026. We will bill you for the final payment at either 180 days or when the tour has reached sufficient subscription to operate, whichever date comes later.

Since the cost of your trip insurance and airline tickets is generally non-refundable, please do not finalize these purchases until you have received final billing for the tour or have been advised that the tour is sufficiently subscribed to operate by your tour manager.

CANCELLATION POLICY: Refund of deposit and full payment, less \$100 handling fee, will be made if cancellation is received up to 180 days before departure. If cancellation occurs between 179 and 90 days before the departure date, 50% of the full tour fee is non-refundable, which would include the full deposit if the final payment has not yet been paid. Thereafter, all deposits and payments are not refundable and non-transferable.

Our cancellation policy only applies to payments made to Field Guides for tour (and any services included in those fees). Airline tickets not included in the tour fee and purchased separately often carry penalties for cancellation or change, or are sometimes totally non-refundable. Additionally, if you take out trip insurance the cost of that insurance is not refundable, so it is best to purchase the policy just prior to making full payment for the tour or at the time you purchase airline tickets, depending upon the airline's restrictions.

The right is reserved to cancel any tour prior to departure. In most such cases, full refund will constitute full settlement to the passenger. Note this exception, however: If you have been advised pre-tour that there is a non-refundable portion of your tour fee no matter the reason for Field Guides cancellation of the tour, that portion will not be refunded. The right is reserved to substitute in case of emergency another guide for the original one.

TRIP CANCELLATION & MEDICAL EMERGENCY INSURANCE: We strongly recommend purchasing trip cancellation (including medical emergency) insurance to protect your investment in case of injury or illness to you or an immediate family member before or during a trip. Because we must remit early and substantial deposits to our suppliers, we cannot offer refunds for cancellations outside of our Cancellation Policy. If a participant is unable to join or continue a tour due to illness, all related expenses will be their responsibility, and no refunds can be issued for missed days. Please wait to purchase insurance until we notify you that the tour is confirmed to operate, as most policies are non-refundable.

For full details, visit our Trip Cancellation Insurance page at <https://fieldguides.com/trip-cancellation-insurance/>.

RESPONSIBILITY: For and in consideration of the opportunity to participate in the tour, each tour participant and each parent or legal guardian of a tour participant who is under 18 agrees to release, indemnify, and hold harmless Field Guides Incorporated, its agents, servants, employees, shareholders, officers, directors, attorneys, and contractors as more fully set forth in the Release and Indemnity Agreement on the registration form. Field Guides Incorporated acts only as an agent for the passenger in regard to travel, whether by railroad, motorcar, motorcoach, boat, airplane, or other means, and assumes no liability for injury, damage, loss, accident, delay, or irregularity caused by defect in such vehicles or for any reason whatsoever, including the acts, defaults, or bankruptcies of any company or person engaged in conveying the passenger or in carrying out the arrangements of the tour. You acknowledge and agree that Field Guides Incorporated is not responsible for losses or additional expenses due to delay or changes in air or other services, sickness, weather, strike, war, quarantine, or other causes. The tour participant shall bear all such losses and expenses. Field Guides Incorporated reserves the right to substitute hotels of similar category for those indicated and to make any changes in the itinerary where deemed necessary or caused by changes in air schedules. Field Guides Incorporated reserves the right to decline to accept or to retain any person as a member of any tour. Baggage is at owner's risk entirely.

Participants should be in good health and should consult a physician before undertaking a tour. If you have questions about the physical requirements of a tour, please contact our office for further information. Participants should prepare for the tour by reading the detailed itinerary, the information bulletin, and other pertinent matter provided by Field Guides. Each participant is responsible for bringing appropriate clothing and equipment as recommended in our bulletins.

THE RECEIPT OF YOUR TOUR DEPOSIT SHALL BE DEEMED TO BE CONSENT TO THE ABOVE CONDITIONS. EACH TOUR PARTICIPANT AND EACH PARENT OR LEGAL GUARDIAN OF A TOUR PARTICIPANT WHO IS UNDER 18 SHALL SIGN AND DELIVER THE RELEASE AND INDEMNITY AGREEMENT AT THE TIME OF REGISTRATION.
