

ITINERARY

**Jamaica**

*Tour I: February 24-March 2, 2019*

*Tour II: March 3-9, 2019*

*Tour III: November 24-30, 2019*

*We've had very good luck in finding Jamaican endemics on our tours, including the attractive Jamaican Woodpecker. One of 27 species found only on Jamaica, this woodpecker is common throughout the island. Photograph by guide Eric Hynes.*

*We include here information for those interested in the 2019 Field Guides Jamaica tour:*

- a general introduction to the tour
- a description of the birding areas to be visited on the tour
- an abbreviated daily itinerary with some indication of the nature of each day's outings

*Those who register for the tour will be sent this additional material:*

- an annotated list of the birds recorded on a previous year's Field Guides trip to the area, with comments by guide(s) on notable species or sightings (may be downloaded from our web site)
- a detailed information bulletin with important logistical information and answers to questions regarding accommodations, air arrangements, clothing, currency, customs and immigration, documents, health precautions, and personal items
- a reference list
- a Field Guides checklist for preparing for and keeping track of the birds we see on the tour
- after the conclusion of the tour, a list of birds seen on the tour

**J**amaica is one of the hotbeds of avian endemism in the West Indies with at least 27 species found nowhere else. Add to that a host of regional specialties and numerous wintering wood warblers and you've got an irresistible birding destination close to the United States. It doesn't hurt that it's all based from a single hotel on a lush tropical island with fabulous food, vibrant culture, and world-renowned music. In just a week, we stand a good chance at encountering all of Jamaica's endemics, from the fabulous Streamertails to the taxonomically curious Orangequit.

Jamaica is the third largest island in the Caribbean at 146 miles long and 51 miles at its widest point. But don't worry; we won't be racing around the whole island. Instead, we'll spend our time at the safe northeastern end of the island, birding at a leisurely pace. Our goal is not to see every species in Jamaica but to see every species that you can only find in Jamaica (this includes the 19 endemic subspecies). We won't be pressing to reach every corner of the island or chancing any risky sites to find a species easily seen somewhere else.

Green Castle Estate provides casual elegance at its picturesque home overlooking 1650 acres on the northeast coast of Jamaica. This safe and isolated property is managed for a cross-section of habitats, which host more than half of Jamaica's endemics. Jamaican Spindalis, the red-billed subspecies of Streamertail, Jamaican Woodpecker, and Jamaican Tody can all be seen while holding a cup of local coffee or organic juice freshly squeezed from the estate's orchards. The trails on site should yield other endemics like the Jamaican Lizard-Cuckoo, Jamaican Becard, Sad Flycatcher, Yellow-shouldered Grassquit, and White-chinned Thrush. The Caribbean breeze, a dip in the pool, a good book, and a rum punch or fresh-squeezed juice might be really tempting. The beauty of staying at the same hotel is you are welcome to succumb to temptation and pass on any outing you wish (except for the ride back to the airport).

In order to round out our list of endemics, we will take field trips to the John Crow Mountains, Blue Mountains, and Cockpit Country. Our higher elevation targets will include Ring-tailed Pigeon, Crested Quail-Dove, Yellow-billed and Black-billed parrots, Chestnut-bellied Cuckoo, Blue Mountain Vireo, and the odd Jamaican Blackbird. We will make stops along the coast to look for terns, frigatebirds, shorebirds, and herons.

**About the Physical Requirements & Pace:** The formation of Jamaica was a result of uplifting events; so much of the island is hilly or mountainous. We will likely cover three to five miles on foot each day. Expect to be walking up and down gentle grades most of the time, with steeper pitches at a couple of the sites. We will avoid any major climbs, but most of the terrain we will be covering is sloped. Green Castle Estate sits atop a hill. All the walks on-site go down but then we must walk back up to return. We will be walking road edges or well-maintained trails for the most part. We will not be stepping over boulders or climbing over logs, but there will certainly be sections of the trails that are loose, uneven, or slippery. Sturdy walking shoes or hiking boots are recommended. Over the course of the day, expect to walk several miles but never in any one march. If a sustained uphill walk leaves you winded or unsteady, consider bringing a walking pole or collapsible stool.

Jamaica in general is pretty hot and humid, but our mornings at elevation might be a bit chilly. We are visiting during what is known as the dry season but rain or showers are always a possibility, especially in the John Crow Mountains.

## About the Birding Areas

**Green Castle Estate:** This 1650-acre historic plantation will be our home base for the duration of the tour. This is still an active farm with fruiting trees, cattle, orchids, cocoa, coffee, and more produced on various sections of the property. This eco-retreat works hard to strike a balance on the land and has much of it in protected forest. Much of the active agriculture is organic, including the variety of fruit we enjoy at meals. Twenty-one of the 27 endemic species have been recorded at this site, and the property list stands at 124 species and growing. The lovely flowering trees and shrubs around the guesthouse draw many of the more

common and widespread endemics like Jamaican Tody, Jamaican Mango, Red-billed Streamertail, Yellow-shouldered Grassquit, Jamaican Euphonia, Jamaican Spindalis, and Jamaican Woodpecker. The network of trails will put Jamaican Lizard-Cuckoo, Jamaican Becard, Rufous-tailed Flycatcher, Jamaican Vireo, White-chinned Thrush, and numerous wood-warblers in reach. The reservoir on the estate draws lots of ducks, coots, waders, and shorebirds. The landscape is hilly but the trails are all well maintained and have reasonable footing.

**Blue Mountains:** Famed for their outstanding coffee, the Blue Mountains are thinly populated, comprised mostly of igneous shales, and still covered in many places by lush, mature, wet montane forests. We will walk the road through marvelous cloud forest at Hardwar Gap, with abundant mosses, bromeliads, and tree ferns. Our search images will be tuned to the shaky gait of the Crested Quail-Dove (one of the most challenging endemics to see), Ring-tailed Pigeons overhead, and various endemic flycatchers and the Blue Mountain Vireo in the trees. We will be keen to spot the uncommon Jamaican Blackbird. We will hear the ethereal song of the Rufous-throated Solitaire and scan for the impressively large Chestnut-bellied Cuckoo as well.

*The Yellow-billed Parrot is the more colorful and easier to find of the two endemic Jamaican parrots. We'll look for them in the John Crow Mountains. Photograph by guide Tom Johnson.*

**John Crow Mountains:** Named after the Turkey Vultures (called "John Crow" locally) that course back and forth across their cloud-covered peaks, the John Crows are the easternmost mountains in the country. This area is rugged, formed of rather sharp karst limestone, and its razorback peaks receive quite a bit of rain (up to 300 inches per year!), owing to their exposure to the Northeast Trade Winds. This area is the only place in Jamaica where all the endemic bird species are possible. Our number one target on this day trip will be the black-billed subspecies of Streamertail, whose tiny range is restricted to these mountains. This site will be our first chance to spot Jamaican Crow and both the Yellow-billed Parrot and the harder-to-find Black-billed Parrot. Another species we will concentrate on is Jamaican Blackbird, which is one of the hardest endemics to track down and a rather unusual Icterid. Keep your eyes peeled for Arrowhead Warbler and Crested Quail-Dove this day too.

It is made up of steep hills and valleys and is pockmarked with sinkholes and covered in dense forest. We will visit this region toward the end of the tour. It serves as an excellent back-up if we have missed either of the endemic parrots, Jamaican Crow, Crested Quail-Dove, or Blue Mountain Vireo up to this point. The Jamaican subspecies of Olive-throated Parakeet is conspicuous here.

**Cockpit Country:** This region sits southeast of Montego Bay and derives its name from the classic karst topography.

**Rockland's Bird Sanctuary:** Have you ever experienced a hummingbird on your finger? Well, you can hand feed both endemic hummingbirds here. This site will serve as our grand finale. Over the course of many years, quite a few of the endemic species have become remarkably habituated at this elaborate feeding station. Photographic opportunities abound. Northern Potoo and Jamaican Owl are sometimes found on their day roosts at this site as well.

## Itinerary for Jamaica

**Day 1, Sun. Arrival at Montego Bay's Sangster International Airport and travel to Green Castle Estate.** Please schedule your flight to arrive no later than 2 p.m. in order to meet your guide and the rest of the group at **3 p.m.** for the start of the tour. After clearing the last checkpoint in the immigration zone, follow the overhead signs for "Public Arrivals Area" when you enter the open space. Turn right at the Island Rental Car counter and head outside. If you survive the gauntlet of harassing taxi drivers, you will see Groovy Grouper Beach Bar & Grill immediately to the right. Let's meet on their patio. Your guide's photo is on the website for easy recognition. Please be sure to use the Field Guides luggage tags provided to you by our office so the guide can easily recognize you as part of the Field Guides group. An air-conditioned Coaster bus will transport us to Green Castle Estate. Expect the drive to take about three hours. We are not expected to drive by anything we won't see later in the tour, so this drive will be fairly direct. However, it is a birding tour after all, so undoubtedly, we will make a couple brief stops. Be sure to have your binoculars out for this drive. After getting settled in our rooms, we will enjoy dinner. Night at Green Castle Estate.

**Day 2, Mon. Birding Green Castle Estate.** After a long day of travel yesterday, we will avoid getting into any vehicles and just bird the plantation. We will take our time and soak in the more common endemics like Jamaican Vireo, Jamaican Tody, Jamaica Woodpecker, Orangequit, Sad Flycatcher, Jamaican Euphonia, and White-chinned Thrush. We'll devote

time to tracking down more uncommon endemics like Yellow-shouldered Grassquit, Jamaican Elaenia, and Jamaican Lizard-Cuckoo. Jamaican endemic subspecies of Olive-throated Parakeet, Loggerhead Kingbird, and Vervain Hummingbird should be right outside your door. The fascinating hum generated by the elaborate plumes of the Streamertail when flying might stir you from sleep. Expect to walk four to five miles over the course of the day over hilly terrain with uneven or slippery footing in some sections. Night at Green Castle Estate.

**Day 3, Tue. Blue Mountains.** This will be an early departure to Hardwar Gap. A perched Barn Owl sighting is a distinct possibility as we depart GCE predawn. The two most challenging endemics to see are Crested Quail-Dove and Jamaican Blackbird. Along with Blue Mountain Vireo and Chestnut-bellied Cuckoo, those four species will be the endemics we are most focused on in the Blue Mountains. Other endemics at this 4000-foot site include: Ring-tailed Pigeon, Jamaican Vireo, Rufous-tailed Flycatcher, Jamaican Pewee, Jamaican Spindalis, Arrowhead Warbler, and Jamaican Elaenia. The hauntingly beautiful song of the Rufous-throated Solitaire will be one of the highlights of the morning. The footing will be good as we bird along the road. Expect to walk several miles over a gentle slope, but in one stretch it is rather steep. To help round out our Jamaican experience, will make a quick visit to a coffee plantation. Night at Green Castle Estate.

**Day 4, Wed. Vinery and Green Castle Estate.** Vinery is not far from GCE but we will still depart early to give ourselves the best chance to see the elusive “Mountain Witch” or Crested Quail-Dove if it still eludes us. Jamaican Tody, Yellow-shouldered Grassquit, and White-eyed Thrush can be very cooperative on this untraveled road. Ruddy Quail-Dove is a distinct possibility here as well. Lunch will be back at Green Castle Estate. In the afternoon we will bird areas of the estate we skipped on the first day. Our primary interest is the reservoir, which often hosts specialties like West Indian Whistling-Duck. Other noteworthy species we hope to find there are Purple Gallinule, Black-necked Stilt, Northern Jacana, and Stolid Flycatcher. Night at Green Castle Estate.

**Day 5, Thu. Foothills of the John Crow Mountains and coastal sites.** We will head out early to Ecclesdown Road at the far eastern end of the island. This is the only place in all of Jamaica where all of the endemic species have been recorded. New targets for this site will be Yellow-billed Parrot, Black-billed Parrot, Jamaican Crow, and the black-billed subspecies of Streamertail, which is a likely armchair lifer someday (after it's split). Ecclesdown Road is a good back-up location for any of the endemics we missed previously. We will walk several miles on this quiet road with good footing and a gentle rise. For lunch, we will stop in Boston Bay, the world-famous home of Jamaican jerk. As time allows, we will make stops on our return drive along the coast, adding wading birds and shorebirds to our trip list. Night at Green Castle Estate.

*The Jamaican Spindalis has been seen on the grounds of Green Castle Estate on recent tours, and we'll also likely see them at other birding stops. Photograph by guide Eric Hynes.*

**Day 6, Fri. Cockpit Country and Montego Bay sites.** We will say goodbye to the wonderful staff of GCE and venture west to Cockpit Country. This region is rich with both endemic parrots, Jamaican Crow, Crested Quail-Dove, Rufous-tailed Flycatcher, and numerous wood warblers. After our walk, we will make our way to Montego Bay for lunch. The grand finale will be a visit to Rockland's Bird Sanctuary where you can have Streamertails and Jamaican Mangos sip sugar water from handheld feeders while Orangequits, Jamaican Orioles, Caribbean Doves, Bananaquits, and grassquits visit feeders little more than an arm's length away. On the way to our hotel, we will visit the Montego Bay Sewage Ponds for great looks at a number of waterbirds. We will say our goodbyes over a scrumptious dinner right at our lovely hotel. The tour concludes this night.

**Day 7, Sat. Depart for Home.** A delightful complimentary breakfast is yours to enjoy at the hotel. The rooftop deck is a great birding spot in the morning. Plan your flight home whenever it is convenient for you. We will arrange a shuttle for you to Sangster International Airport, which is only five minutes away.

## About Your Guides

### Tour I:

**Chris Benesh** grew up studying natural history in California, where he was inspired by his father to take up birding as a teenager. After earning a degree in zoology from UC Santa Barbara in 1987, Chris moved to Austin to join the Field Guides staff. Since then, his life has undergone a wonderful transformation. The intervening years at Field Guides have taken him to many corners of the world and across both the Arctic and Antarctic circles! Chris takes an interest in nearly anything that flies, and you might catch him sneaking a peek at a passing aircraft or stopping to examine a butterfly or odonate. You might also notice him getting especially excited at the sighting of a rare or wonderful mammal (heck, he can get excited about a squirrel).

Chris serves on the Arizona Bird Committee, and additionally his passion for education has led to his ongoing work on a photoguide to North American flycatchers (can you say "glacial pace"?), as well as the occasional workshop or birding convention presentation. These days, most of his "down time" is spent at home in Tucson watching his two wonderful kids, Sean and Linnea, grow.

*"Chris Benesh is a top-notch guide, with amazing skills and a great personality. I had such a great time on this tour that I refuse to check it off my "bucket list." I really want to do it again." D.C., Newfoundland & Nova Scotia*

### Tour II:

**Eric Hynes** has been fascinated by birds and passionate about birding since he first heard the ghostly wailing of a Common Loon at summer camp in Maine more than 30 years ago. Upon completion of his B.S. at the University of Vermont, where he studied environmental studies and wildlife biology, Eric began a serious endeavor as a bird hobo that lasted more than a decade. His travels ranged across the U.S. with a number of trips to Central America as well. During this quest, Eric did everything from monitoring breeding raptors in the Snake River Canyon, to guiding for two summers in Alaska on St. Paul Island in the Pribilofs, to ground squirrel rustling in Montana, to owl banding and hawk counting in Pennsylvania.

Getting married to Christine helped settle Eric into a fulltime position at Maine Audubon but not until after a birding trip to Panama cleverly disguised as their honeymoon. As the staff naturalist and adult education coordinator, Eric taught numerous bird identification workshops and led field trips locally and abroad for Maine Audubon. His positive energy and infectious enthusiasm for all things wild has drawn many a convert to birding and conservation. Eric served several terms on the Maine Bird Records Committee.

Eric and his family recently relocated to Telluride, Colorado where he focuses on tracking down Gunnison Sage-Grouse and rosy-finches as a scout in-residence for the Colorado Grouse tour.

*Eric Hynes is a great birder, excellent leader, very well organized. Very productive birding and always focused on the birds. S.C., Jamaica*

### Tour III:

**Cory Gregory** started learning birds on flashcards at the age of three, but it wasn't until the ripe age of ten that things started to get more serious. Since then he has traveled to Central and South America, Australia, and all 50 states to try to get his fill of birding (and it hasn't worked yet!).

Cory earned a B.S. in zoology in Michigan, where he also worked for Whitefish Point Bird Observatory for several seasons. He then ventured to Iowa State University, where he earned a M.S. studying Long-billed Curlews in Nebraska. As an avid shorebird ecologist, he has handled more than 2000 shorebirds of more than 30 species.

After finishing school, Cory worked for several organizations as a shorebird ecologist and guided on St. Paul Island in the Pribilofs of Alaska for the 2014 and 2015 seasons. It was on St. Paul that his dream of stumbling on a first North American record was finally fulfilled. Cory is currently based out of Missouri where, when not on tour, he pursues his interest in birds, butterflies, and dragonflies with abandon.

Cory has co-lead Field Guides groups to Arizona, Cape May, Colorado, Maine, Texas, Newfoundland, Costa Rica, Oaxaca, Colombia, Peru, France, and Australia and has a busy and wide-ranging schedule coming up, adding Oregon and Jamaica to his portfolio of tours.

*"Cory Gregory ... is a world-class birder with exceptional sight, hearing, and bird knowledge. His personality is fantastic: very friendly, funny, witty, helpful." C. B., Maine.*

Visit <https://fieldguides.com/guides> and click on a guide's photo for a complete schedule of tours.

## Financial Information

**FEE:** \$3250 from Montego Bay

**DEPOSIT:** \$350 per person

**FINAL PAYMENT DUE:** October 27, 2018 (Tour I); November 3, 2018 (Tour II); July 27, 2019 (Tour III)

**SINGLE SUPPLEMENT (Optional):** \$500

**LIMIT:** 8

## Other Things You Need to Know

**TOUR MANAGER:** The manager for this tour is Mandy Mantzel. Mandy will be happy to assist you in preparing for your tour. If you have any questions, please don't hesitate to call!

**DOCUMENTS:** A current passport, valid beyond the date of your return, is necessary for US citizens to enter Jamaica. If you are not a US citizen, please check with the Jamaican consulate nearest you for entry requirements. Information about consulates and entry requirements is generally available online or you can contact us and we will be happy to look this up for you. Passports should have an adequate number of blank pages for the entire journey. Some countries require a blank page for their stamp and as a precaution it is best to have one blank page per country you will visit or transit.

**AIR ARRANGEMENTS:** Field Guides is a full service travel agency and your tour manager will be happy to assist you with flights to join this tour. Field Guides does not charge a service fee for these services to clients booking a tour. However, we understand that tech-savvy clients often prefer to shop online or that you may wish to use mileage to purchase tickets. Regardless of which method you choose, your tour manager will be happy to provide assistance regarding ticket prices and schedules, along with rental cars and extra hotel nights as needed.

Please be sure to check with your tour manager prior to purchasing your ticket to make sure the flights you have chosen will work well with the tour itinerary and that the tour is sufficiently subscribed to operate. Once purchased, most airline tickets are non-refundable and carry a penalty to change. Field Guides cannot be responsible for these fees.

**Also, it is imperative that we receive a copy of your comprehensive flight itinerary—including any and all flights not covered in the tour fee—so that we may track you in the event of missed connections, delays, or other mishaps.**

**LUGGAGE:** Please be aware that many airlines have recently modified their luggage policies and are charging additional fees for checked bags. Updates could easily occur before your departure, so you may wish to contact your airline to verify the policy. Additional charges for bags on any flights, whether these are covered by the tour fee or not, will be the client's responsibility.

**TOUR INCLUSIONS/EXCLUSIONS:** The **tour fee** is \$3250 for one person in double occupancy from Montego Bay. It includes all lodging from Day 1 through Day 6, all meals from dinner on Day 1 through breakfast on Day 7, all ground transportation, entrance fees, and the guide services of the tour leader(s). Tipping at group meals and for drivers, porters, and local guides is included in your tour fee and will be handled for the group by your Field Guides leader(s). However, if you would like to recognize your Field Guides leader(s) or any local guide(s) for exceptional service, it is entirely appropriate to tip. We emphasize that such tips are optional and not expected.

The above fee does not include your airfare to and from Jamaica, airport taxes, visa fees, any checked or carry-on baggage charges imposed by the airlines, any alcoholic beverages, phone calls, or other items of a personal nature.

The **single supplement** for the tour is \$500. If you do not have a roommate but wish to share, we will try to pair you with a roommate from the tour; but if none is available, you will be billed for the single supplement. Our tour fees are based on double occupancy; one-half the cost of a double room is priced into the tour fee. The single supplement is calculated by taking the actual cost of a single room and subtracting one-half the cost of a double room (plus any applicable taxes).

**TOUR REGISTRATION:** To register for this tour, complete the Registration/Release and Indemnity form and return it with a **deposit of \$350** per person. If registering by phone, a deposit must be received within fourteen days, or the space will be released. **Full payment** of the tour fee is due 120 days prior to departure, or **by October 27, 2018 (Tour I); November 3, 2018 (Tour II); July 27, 2019 (Tour III).** We will bill you for the final payment at either 120 days or

**when the tour has reached sufficient subscription to operate, whichever date comes later.** Since the cost of your trip insurance and airline tickets is generally non-refundable, please do not finalize these purchases until you have received final billing for the tour or have been advised that the tour is sufficiently subscribed to operate by your tour manager.

**SMOKING:** Almost all of our clients prefer a smoke-free environment. If you smoke, please be sensitive to the group and refrain from smoking at meals, in vehicles, and in proximity to the group on trails and elsewhere.

**CANCELLATION POLICY:** Refund of deposit and payment, less \$100 handling fee, will be made if cancellation is received up to 120 days before departure. If cancellation occurs between 119 and 70 days before the departure date, 50% of the tour fee is refundable. Thereafter, all deposits and payments are not refundable.

This policy only applies to payments made to Field Guides for tour fees (and any services included in those fees). Airline tickets not included in the tour fee and purchased separately often carry penalties for cancellation or change, or are sometimes totally non-refundable. Additionally, if you take out trip insurance the cost of the insurance is not refundable so it is best to purchase the policy just prior to making full payment for the tour or at the time you purchase airline tickets, depending upon the airlines restrictions.

The right is reserved to cancel any tour prior to departure, in which case full refund will constitute full settlement to the passenger. The right is reserved to substitute in case of emergency another guide for the original one.

**TRIP CANCELLATION & MEDICAL EMERGENCY INSURANCE:** We strongly recommend you consider purchasing trip cancellation (including medical emergency) insurance to cover your investment in case of injury or illness to you or your family prior to or during a trip. Because we must remit early (and substantial) tour deposits to our suppliers, we cannot offer any refund when cancellation occurs within 70 days of departure, and only a partial refund from 70 to 119 days prior to departure (see CANCELLATION POLICY). In addition, the Department of State strongly urges Americans to consult with their medical insurance company prior to traveling abroad to confirm whether their policy applies overseas and if it will cover emergency expenses such as a medical evacuation. US medical insurance plans seldom cover health costs incurred outside the United States unless supplemental coverage is purchased. Furthermore, US Medicare and Medicaid programs do not provide payment for medical services outside the United States.

When making a decision regarding health insurance, Americans should consider that many foreign doctors and hospitals require payment in cash prior to providing service and that a medical evacuation to the United States may cost well in excess of \$50,000. Uninsured travelers who require medical care overseas often face extreme difficulties. When consulting with your insurer prior to your trip, please ascertain whether payment will be made to the overseas healthcare provider or whether you will be reimbursed later for expenses that you incur.

US citizens will receive from us a brochure regarding optional tour cancellation/emergency medical insurance. Our agent, CSA, will insure for trip cancellation and interruption, medical coverage, travel delay, baggage loss and delay, 24-hour accident protection, and emergency medical transportation. If you purchase the insurance when making final payment for the tour, and cover all non-refundable parts of the trip (including any non-refundable flights), pre-existing conditions are covered. The CSA brochure includes a contact number; you may also purchase your CSA policy on-line by visiting our website at <https://fieldguides.com/travelinsurance.html> and clicking the link to CSA. Please note, once the insurance is purchased it is non-refundable, so please check with your tour manager prior to making the purchase to assure the tour will operate as scheduled. Citizens of other countries are urged to consult their insurance broker.

**RESPONSIBILITY:** For and in consideration of the opportunity to participate in the tour, each tour participant and each parent or legal guardian of a tour participant who is under 18 agrees to release, indemnify, and hold harmless Field Guides Incorporated, its agents, servants, employees, shareholders, officers, directors, attorneys, and contractors as more fully set forth in the Release and Indemnity Agreement on the reverse side of the registration form. Field Guides Incorporated acts only as an agent for the passenger in regard to travel, whether by railroad, motorcar, motorcoach, boat, airplane, or other means, and assumes no liability for injury, damage, loss, accident, delay, or irregularity caused by defect in such vehicles or for any reason whatsoever, including the acts, defaults, or bankruptcies of any company or person engaged in conveying the passenger or in carrying out the arrangements of the tour. Field Guides Incorporated accepts no responsibility for losses or additional expenses due to delay or changes in air or other services, sickness, weather, strike, war, quarantine, or other causes. The tour participant shall bear all such losses and expenses. Field Guides Incorporated reserves the right to substitute hotels of similar category for those indicated and to make any changes in the itinerary where deemed necessary or caused by changes in air schedules. Field Guides Incorporated reserves the right to decline to accept or to retain any person as a member of any tour. Baggage is at owner's risk entirely.

Participants should be in good health and should consult a physician before undertaking a tour. If you have questions about the physical requirements of a tour, please contact our office for further information. Participants should prepare for the tour by reading the detailed itinerary, the information bulletin, and other pertinent matter provided by Field Guides. Each participant is responsible for bringing appropriate clothing and equipment as recommended in our bulletins.

THE RECEIPT OF YOUR TOUR DEPOSIT SHALL BE DEEMED TO BE CONSENT TO THE ABOVE CONDITIONS. EACH TOUR PARTICIPANT AND EACH PARENT OR LEGAL GUARDIAN OF A TOUR PARTICIPANT WHO IS UNDER 18 SHALL SIGN AND DELIVER THE RELEASE AND INDEMNITY AGREEMENT AT THE TIME OF REGISTRATION.
