

ITINERARY

WINTER JAPAN
Dancing Cranes & Spectacular Sea-Eagles
January 15 - January 30, 2021

We include here information for those interested in the 2021 Field Guides Winter Japan tour:

- a general introduction to the tour
- a description of the birding areas to be visited on the tour
- an abbreviated daily itinerary with some indication of the nature of each day's birding outings

These additional materials will be made available to those who register for the tour:

- an annotated list of the birds recorded on a previous year's Field Guides trip to the area, with comments by guide(s) on notable species or sightings
- a detailed information bulletin with important logistical information and answers to questions regarding accommodations, air arrangements, clothing, currency, customs and immigration, documents, health precautions, and personal items
- a reading list
- a Field Guides checklist for preparing and keeping track of the birds we see on the tour
- after the conclusion of the tour, a list of birds seen on the tour

The unforgettable Steller's Sea-Eagle by 2020 participant Rick Thompson

The islands of Japan lie at the eastern edge of Eurasia and cover a diverse range of habitats, from the sub-tropical Ryukyu Islands to the almost Siberian-taiga-like wilds of Hokkaido. Japan is a surprisingly mountainous and wooded land, with beautiful varied coastlines and very heavily populated lowlands, where tiny rice fields dot the landscape amidst the rural dwellings. Winter birding here is one of the great spectacles on earth, with three areas in particular being

essential. These are the Hooded and White-naped crane sanctuaries of Kyushu in the far south, the Red-crowned Crane reserve in southern Hokkaido, and the wintering grounds of the magnificent Steller's Sea-Eagles on the ice fields around Lake Furen in the far north. Add to this the wintering wildfowl, thrushes, finches, and alcids, the challenge of the large Asian gull complex, plus a useful sprinkling of endemics including the huge, marvelous and rare Blakiston's Fish-Owl, and you have the makings of a truly memorable visit.

Japanese culture is also a feature of the trip, as some of our lodgings are in traditional Japanese guest-houses (*minshuku*), with sliding walls, tatami rush matting, and futon bedding, while a couple of the hot-spring hotels called *onsen* have wonderful deep hot-spring baths. The food is also very distinct, with a fantastic selection of sauces for the elaborate fish, rice, and vegetable dishes which make up the traditional cuisine, and we will have some memorable meals.

We want to be sure you are on the right tour! Below is a description of the physical requirements of the tour. If you are concerned about the difficulty, please contact us about this and be sure to fully explain your concerns. We want to make sure you have a wonderful time with us, so if you are uncomfortable with the requirements, just let us know and we can help you find a better fitting tour! Field Guides will not charge you a change or cancellation fee if you opt out within 10 days of depositing.

Physical requirements of this tour

- **TRAILS & WALKING:** Moderate amounts of walking (up to 2 miles per day), mostly on level terrain along roadsides and on wide trails. We may walk in ankle-deep snow or on icy surfaces for short distances (walking sticks recommended and ice-grippers for footwear can be useful in the Japanese Alps).
- **POTENTIAL CHALLENGES:** We have several significant periods of travel on this tour. Participants should be able to step up (and step down) 10-12 inches to get into and out of our vehicles. Parking lots, roads, and tracks can be icy at times, so sticks and ice-grippers are recommended.
- **PACE:** After breakfast (usually set for 6:30-7:30 a.m.), we will bird until lunch time. Normally, we bird after lunch or continue traveling to our next destination. We will not have opportunities for afternoon breaks on this tour.
- **WEATHER:** Temperatures will range from the low 20s to 40s F (minus 20 to plus 5 C). Rain showers are likely in the south, where it can also be cold and windy, and snow is likely in the north.
- **ELEVATION:** We reach elevations of up to 2000 feet on this tour, but there are no high altitudes involved.
- **VEHICLE SEATING:** So that each participant has equal opportunity during our travel, we employ a seat rotation system on all tours. Participants will need to be flexible enough to maneuver to the back of the vehicle on occasion. Those who experience motion sickness will need to bring adequate medication for the duration of the tour, as we are not able to reserve forward seats for medical conditions.
- **BATHROOM BREAKS:** We generally use modern, indoor facilities on this tour.
- **OPTING OUT:** Where we are staying multiple days in the same lodging, participants can easily opt to sit out a day or sometimes a half-day. This will not be possible on days when we are changing locations (as we do often on this tour).

Itinerary for Winter Japan: Dancing Cranes & Spectacular Sea-Eagles

Days 1-2, Fri-Sat, 15-16 Jan. Departure from the US; arrival in Narita. There are direct flights from many US cities to Narita; our office will be happy to help you with the best schedule from your home city. From the US, you'll cross the international dateline, arriving the afternoon of Day 2 (Jan 16). If you arrive in time, the grounds of our hotel and the nearby Tokko creek channel (just across the main roads, about a mile, exit the Tobu Narita, take first right downhill, 100m away), turn left along the path by the motorway (300 m) then use the pedestrian crossing to cross the highway before heading downhill to the creek. It is worth a check for the somewhat tricky Brown-headed Thrush (this is the best place to find it), Bull-headed Shrike, Japanese Wagtail, Japanese White-eye, and Eurasian Tree Sparrow. We'll gather for dinner in the lobby of our hotel at about 7 p.m. Night in Narita.

Day 3, Sun, 17 Jan. The Japanese Alps, with a short walk to the area around Narita Creek (after breakfast), then we'll begin the first leg of our tour with a 3-4 hour vehicle (Grand Cabin van) ride from Narita to our hotel near Karuizawa, a part of the Japanese Alps where we'll spend two nights. The snowy forests here offer our first real taste of birding in Japan. The feeders at a nearby hotel can be a major attraction as we go out in search of Japanese (Green) and Japanese Pygmy woodpeckers, Varied, Japanese (Great), Willow, Coal, and Long-tailed tits, Brown Dipper, Dusky Thrush, Japanese Accentor, Eurasian Jay, Meadow, Yellow-throated, and Black-faced buntings, Asian Rosy-Finch, maybe Long-tailed Rosefinch, Hawfinch, and the comical looking Japanese Grosbeak. We also have a slight chance for Japanese Waxwing (if it is an invasion year; we saw them in 2018), and the elusive Copper Pheasant. **Ice grippers and sticks are recommended here and all snowy areas.** Night at Karuizawa.

Day 4, Mon, 18 Jan. Birding the Japanese Alps. We'll have a full day to bird in Karuizawa and the surrounding areas. We'll begin with an early morning walk looking for Copper Pheasant, then visit a nearby river and water impoundment for Smew, Falcated Duck, Japanese Buzzard, perhaps Crested Kingfisher

and Long-billed Plover, assorted buntings and with a chance of Green Pheasant as well. Night at Karuizawa.

Day 5, Tue, 19 Jan. Hot springs and Snow Monkeys; to Kanazawa. This morning we'll have the opportunity to view the famous Snow Monkeys (Japanese Macaque), a terrestrial monkey endemic to Japan. In the mornings during the winter the monkeys descend from the forests where they spend the night to the warm waters of the *onsen*, or hot springs. The monkeys are remarkable for the amount of time they spend relaxing in these hot springs and we'll observe them as they laze about in the snow-surrounded pools. Once we have enjoyed the extraordinary spectacle of the monkeys, and wondering how come they don't freeze to death when they emerge, we'll continue to Komatsu which is about 3 hours' drive, often through deep snow. It is just over a kilometre (half a mile +) to walk in to the springs, but they keep the pathway fairly clear from the surrounding deep snow. Ice grippers and sticks are recommended here.

On our way if time permits we'll stop at Lake Kahokugata and the wetlands surrounding it. This is an important staging area and wintering grounds for waterfowl, and can also include Gray-headed Lapwing and raptors such as Eastern Marsh Harrier and Merlin. It has also been very good for Japanese Pheasant. Night in Komatsu.

Day 6, Wed, 20 Jan. Katano-Kamoike, Kahokugata Wetlands and Awaru. We'll drive today to the wetland reserve of Katano-Kamoike in Kaga. There should be hundreds of wintering ducks here including Falcated and Smew, as well as Taiga Bean Goose and a wintering flock of Baikal Teal for which the reserve is famous. We may also visit the wetlands at Kahokugata and the fields around Awaru city depending on local conditions. Night in Komatsu.

Day 7, Thu, 21 Jan. Kanazawa to Izumi. Mainly a travel day with the flight leaving early morning, transfer to Komatsu Airport for our flight to Haneda and then Kagoshima and driving to Izumi or Miyazaki where we will stay overnight, depending on a possible boat trip for Japanese Murrelet. Night in Izumi or Miyazaki.

Days 8-9, Fri-Sat, 22-23 Jan. Arasaki. [Note: We are investigating the possibility of beginning this day with a two-hour boat trip for Japanese Murrelet from Miyazaki, then head south to Arasaki via Yatsushiro. We will update this itinerary when we know more.] These two days should be some of the most memorable of the tour. Hooded and White-naped cranes winter here by the thousands, and Arasaki is a major refuge for both species. The crane flocks can number up to 17,000 birds, one of the largest assemblages of them on Earth. They give tremendous views as they come to feed on fish and grain put out early in the morning, before dispersing out to the fields for the day. Other species of cranes also turn up here, so both Common and Sandhill are a good bet, while Siberian White and Demoiselle are an outside possibility.

The fields hold flocks of wintering wildfowl, thrushes, buntings, and finches, with Chinese Penduline-Tit also a good possibility, as well as the scarce Long-billed Plover and endangered Black-faced Spoonbill. Woodland areas will give us a chance for Eurasian Sparrowhawk and Eastern Buzzard (the Japanese form of Common Buzzard now treated as a distinct species), along with Japanese Wagtail, Brown Dipper, and Crested Kingfisher.

We'll be staying in a hotel close to the Crane Centre. We'll visit sites that are wintering grounds for two major East Asian rarities, both critically endangered: Black-faced Spoonbill, which feeds along the tidal flats, and Saunders's Gulls that fly overhead searching for crabs. We will have a good chance for other birds as well, and a few of these include Eurasian Spoonbill, Japanese Pheasant, Buff-bellied and Red-throated pipits, Siberian Meadow, Chestnut-eared and Rustic buntings, and Daurian Jackdaw, with a check for Japanese Murrelet and Japanese Cormorant along the coast to the south.

On one of our days here, depending on the tides, we'll visit the Minami River mouth at Yatsushiro for the wintering flocks of gulls which can include as many as nine species, among them Black-tailed and the rare Saunders' plus various forms of large gulls in the Herring Gull complex, mostly Vega. Nights at a business hotel at Izumi (which has very compact rooms!).

Dancing Red-crowned Cranes at Tsurui on our 2020 tour by guide Phil Gregory

Day 10, Sun, 24 Jan. Arasaki to Lake Miike. This morning we'll drive to Lake Miike where Mandarin Duck, White's (Scaly) Thrush, and Gray Bunting are possible in addition to the elusive Ryukyu Minivet and maybe White-backed Woodpecker. Night at Kagoshima.

Days 11-12, Mon-Tue, 25-26 Jan. Journey to Hokkaido; Rausu area. On the morning of Day 11, we'll fly from Kagoshima to Kushiro with a stop in Haneda. We'll visit take a quick look at the harbor in Kushiro if time permits in the late afternoon, or visit a Red-crowned Crane sanctuary at Tsurui.

We'll start Day 12 with an early visit to the famous riverine roost site at Otowa Bridge where the cranes emerge out of the morning mists; once we've seen the cranes to our satisfaction, we'll move northwards to Rausu and the Shiretoko Peninsula, checking a Ural Owl site en route and no doubt encountering the amazing Steller's Sea-Eagle. We'll stop in Teshikaga for lunch and do some birding by the local park, which is great for Whooper Swans and other wildfowl. Our main object, the huge, magnificent Blakiston's Fish-Owl—arguably the largest owl in the world—is a regular visitor outside

the small *minshuku* at Washi-no-Yado (where we will either stay or have arranged a visit), where the stream and surrounding ponds are kept free of ice and stocked with fish. There are good photo ops here, now from both bedrooms and dining room. Nights in Kushiro (Day 11) and at Rausu (Day 12).

Day 13, Wed, 27 Jan. Rausu area. We'll spend another day in this rich area. Depending on the weather and the state of the ice, we will make an early morning boat trip out to the edge of the pack ice for up-close and personal views of the marvelous Steller's Sea-Eagle, the largest of the family and a truly impressive creature—once seen never forgotten! The boat crew are experts in throwing out fish for both Steller's and White-tailed eagles to snatch from the sea, and there can be dozens of them soaring around waiting, so photo ops are fantastic. We'll bird the harbors and bays for Whooper Swan, Harlequin Duck, and a variety of alcids before traveling south towards the bleak frozen wetlands of the Notsuke peninsula, where Spectacled Guillemot and Black and Stejneger's scoters are often seen offshore. Night at the wonderful hot-spring *onsen* of Yoroushi, where there is another chance of Blakiston's Fish-Owl (amazing here in the past 3 years!) and some interesting feeder birds such as the white-headed *caudatus* race of Long-tailed Tit, the dark-eyed *brandtii* race of what is currently Eurasian Jay, the *asiatica* race of Eurasian Nuthatch with white underparts, the very distinctive *japonicus* taxon of Great-spotted Woodpecker, and sometimes Hawfinch, while in some years (as in 2017 and 2018) we had a Solitary Snipe feeding in the stream right outside!

Blakiston's Fish-Owl by 2020 participant Ron Majors

Day 14, Thu, 28 Jan. Travel to Lake Furen. Lake Furen is a well-known Japanese birding center in the heart of Steller's Sea-Eagle country. Here we'll find a very different, wild, and snow-covered landscape where we expect to see some of the most spectacular birds of the trip during our two-night stay. Passerines will be very scarce, but Great-spotted Woodpecker, Japanese Pygmy-Woodpecker, Marsh Tit, Eurasian Nuthatch, and Asian Rosy-Finch are likely. Night at a hotel in Nemuro or at Lake Furen Lodge.

Day 15, Fri, 29 Jan. Lake Furen area. Today will be very full and exciting, with trips to Cape Nosappu and Cape Kiritappu as well as local Furen sightings such as sea-eagles gathered around fishing holes cut in the pack ice on the lake.

Wildfowl and seabirds come into their own here, and we'll search some of the unfrozen harbors and bays for wintering Harlequin Duck, Common Goldeneye, Long-tailed Duck, Black and White-winged scoters, Whooper Swan, and loons. Sea-watching will give us practice with alcids, and we may hope for Common Murre, Spectacled Guillemot, and a chance of Least and Crested auklets or Pigeon Guillemot, all depending on the year's seabird distribution and the thickness of the ice. It is a good area, too, for northern gulls, with Glaucous, Glaucous-winged, Slaty-backed, and Mew (Kamchatka) gulls to be expected. Return to Kushiro overnight.

Day 16, Sat, 30 Jan. Return to Narita; flights home. We'll transfer this morning to the Kushiro airport for a late-morning flight back to Haneda and then Express bus to Narita (45 min). Most flights to the US depart Narita after 4:00 p.m. You will arrive on the same day (January 30), after recovering that lost day by once again crossing the International Date Line—in the opposite direction.

About Your Guides

Phil Gregory was born in the UK and became a birder when the steam engines were scrapped and birding offered a way to travel and look for wonderful things. The quest for birds has led to many forays in Europe, Africa, Asia, Australasia, and the Pacific. He and his wife, Sue, worked as teachers for eight years in Nigeria and Zambia, and for seven years in Papua New Guinea. Since 1997 they have lived in Australia.

Phil's major interests are field identification, vocalizations, and the geographic distribution of birds. He has contributed to various reference books including *The Handbook of Birds of the World* and has now written 3 books: *The Lynx Field Guide to the Birds of New Guinea and the Bismarck Archipelago (2017)*, *A Field Guide to the Birds of North Queensland* (with photos by Jun Matsui in 2018) and a family monograph on *Birds of Paradise and Bowerbirds (2020)*. He also published and now maintains three on-line checklists, for Australia and its island territories, New Guinea and associated islands, and the Solomon Islands.

Phil and his wife, Sue, sold the well-known Cassowary House at Kuranda, near Cairns in far north Queensland in early 2020 and have relocated to a rainforest property near Malanda on the Atherton Tablelands, which they share with his son and his wife plus a grandson and two dogs. Look for Phil guiding Field Guides tours to Japan, Taiwan, Cambodia, Ghana, Mongolia, and Madagascar.

Visit <https://fieldguides.com/our-staff/> for Phil's complete tour schedule; just click on his photo.

Jun Matsui has had a lifetime interest in wildlife. He started guiding in 1993 when he worked as a volunteer ranger at the Hikarigoaka nature park in Tokyo. After working for the Japanese Environment Agency where he collected and managed data and at several reserves where he was involved in setting up environmental education projects and guiding, he decided in 1999 to move to Australia. He spent a year traveling around the country and volunteering at various birding hotspots (including Broome Bird Observatory), and then he settled in the tropical Far North Queensland town of Cairns and took a job as a specialist bird tour guide for inbound Japanese groups.

Jun is a keen photographer and has been involved in several bird publications. He is the author of the very popular Japanese language *A Photographic Guide to the Wildlife of the Cairns Region* and has just published a photo *Field Guide to North Queensland Birds* with Phil Gregory. He joined Sicklebill Safaris in 2007 and has been working with them ever since, with Japan tours his specialty, of course.

Financial Information

FEE: \$8675 from Narita (does not include flights within Japan; see note below)

DEPOSIT: \$850 per person

FINAL PAYMENT DUE: September 17, 2020

SINGLE SUPPLEMENT (Optional): \$600 (Singles are not available at Lake Furen and Washi-no-Yado.)

LIMIT: 7

“Phil's tours are among our favorites. And we enjoyed traveling with his assistant guide/driver, Jun, who was beyond patient when it came to explaining what we were eating, etiquette, and the like.” B. S.; Winter Japan

Special Note: Tour fees may be subject to change due to the global economic effects of COVID-19.

We have published the itinerary and price for this tour with the understanding that during these uncertain times we are likely to encounter unforeseen changes. Travel and hospitality companies all over the world have been adversely affected by the pandemic, and there is no guarantee that all of the lodging and transportation we have booked for this tour will still be available at the time of departure. We hope to maintain our services as indicated in our itinerary as well as our published tour fee. However, if changes are required we will make every effort to maintain the quality of the itinerary as it is published with the most appropriate substitutions available. Should any necessary changes result in an increase in service rates to us, we reserve the right to pass on those increases in fees to the tour participant.

A NOTE ON THE INTERNAL FLIGHTS: *We often try to include flights 'in-country' in the tour fee; however, in this case we have excluded them to allow participants to use a Japan Airlines airpass to purchase flights within Japan (only available with the purchase of an international ticket), which saves substantially over buying the tickets separately. Currently (July 2020), the cost for the internal flights is around \$1275.*

Other Things You Need to Know

TOUR MANAGER: The manager for this tour is Karen Turner. Karen will be happy to assist you in preparing for the tour. If you have any questions, please don't hesitate to call her!

ACCOMMODATIONS: Accommodations are generally good on this tour. Most hotels will be western-style, but a few will be Japanese-style with Japanese-style bathhouses (see cultural etiquette below). Futons make a great warm, firm base on which to sleep, and you simply pile quilts up on top to make a really comfortable nocturnal nest. Some places may get you to make up your own futon and quilts, and these are simply folded up and put away in a cupboard next day (as at Washi-no-Yado). Some shared rooms may be necessary in Hokkaido, sleeping on platforms or tatami rush matting floors. We try to ensure en suite bathrooms where possible.

CULTURAL ETIQUETTE: Some of the accommodations will have Japanese-style bathhouses, if you use the *onsen* (hot spring facilities), you need to shower beforehand just outside the hot spring baths, and stack your clothes in the lockers there. Footwear is removed before going into Japanese houses and non-western style hotels. There will be an array of slippers available to wear, but as our feet tend to be larger than the average in Japan, we advise packing a light pair of slippers of your own.

Toilets are usually western-style, and the Japanese lead the world in toilet technology with such things as built-in bidets, piped relaxing music, and warmed seats, which can be very handy when freezing in Hokkaido!

Bowing is a traditional way of greeting, and you may respond with a similar bow, but a smile and handshake will not cause offence. Bows are part of the service in many places. Blowing your nose in public is also taboo, and gauze masks are common in many places to avoid catching colds or infecting others.

DOCUMENTS: US citizens will need a current passport to enter Japan. If you are not a US citizen, please check with the Japanese consulate nearest you for entry requirements. Information about consulates and entry requirements is generally available online or you can contact us and we will be happy to look this up for you. Passports should have an adequate number of blank pages for the entire journey. Some countries require a blank page for their stamp and as a precaution it is best to have one blank page per country you will visit or transit.

AIR ARRANGEMENTS: Field Guides is a full service travel agency and your tour manager will be happy to assist you with flights to join this tour. Field Guides does not charge a service fee for these services to clients booking a tour. However, we understand that tech-savvy clients often prefer to shop online or that you may wish to use mileage to purchase tickets. Regardless of which method you choose, your tour manager will be happy to provide assistance regarding ticket prices and schedules, along with rental cars and extra hotel nights as needed.

Please be sure to check with your tour manager prior to purchasing your ticket to make sure the flights you have chosen will work well with the tour itinerary and that the tour is sufficiently subscribed to operate. Once purchased, most airline tickets are non-refundable and carry a penalty to change. Field Guides cannot be responsible for these fees.

Also, it is imperative that we receive a copy of your comprehensive flight itinerary—including any and all flights not covered in the tour fee—so that we may track you in the event of missed connections, delays, or other mishaps.

LUGGAGE: Please be aware that many airlines have recently modified their luggage policies and are charging additional fees for checked bags. Updates could easily occur before your departure, so you may wish to contact your airline to verify the policy. Additional charges for bags on any flights, whether these are covered by the tour fee or not, will be the client's responsibility. Packing compactly also greatly helps luggage placing in the vehicle.

TOUR INCLUSIONS/EXCLUSIONS: The tour fee is \$8675 for one person in double occupancy from Narita. It includes all lodging from Day 2 through Day 15, all meals from dinner on Day 2 through lunch on Day 16, all ground transportation, entrance fees, tips for baggage handling and meal service, and the guide services of the tour leader(s).

The above fee does not include your airfare to and from Tokyo or flights within Japan, airport taxes, visa fees, any checked or carry-on baggage charges imposed by the airlines, any alcoholic beverages, optional tips to local drivers, phone calls, laundry, or other items of a personal nature.

The **single supplement** for the tour is \$600. (Singles are not available Washi-no-Yado and may not be at Lake Furen.) If you do not have a roommate but wish to share, we will try to pair you with a roommate from the tour; but if none is available, you will be billed for the single supplement. Our tour fees are based on double occupancy; one-half the cost of a double room is priced into the tour fee. The single supplement is calculated by taking the actual cost of a single room and subtracting one-half the cost of a double room (plus any applicable taxes).

TOUR REGISTRATION: To register for this tour, complete the enclosed Registration/Release and Indemnity form and return it with a **deposit of \$850** per person. If registering by phone, a deposit must be received within fourteen days, or the space will be released. **Full payment** of the tour fee is due 120 days prior to departure, or **by September 17, 2020. We will bill you for the final payment at either 120 days or when the tour has reached sufficient subscription to operate, whichever date comes later.** Since the cost of your trip insurance and airline tickets is generally non-refundable, please do not finalize these purchases until you have received final billing for the tour or have been advised that the tour is sufficiently subscribed to operate by your tour manager.

SMOKING: Almost all of our clients prefer a smoke-free environment. If you smoke, please be sensitive to the group and refrain from smoking at meals, in vehicles, and in proximity to the group on trails and elsewhere.

CANCELLATION POLICY: Refund of deposit and payment, less \$100 handling fee, will be made if cancellation is received up to 120 days before departure. If cancellation occurs between 119 and 70 days before the departure date, 50% of the tour fee is refundable. Thereafter, all deposits and payments are not refundable.

This policy only applies to payments made to Field Guides for tour fees (and any services included in those fees). Airline tickets not included in the tour fee and purchased separately often carry penalties for cancellation or change, or are sometimes totally non-refundable. Additionally, if you take out trip insurance the cost of the insurance is not refundable so it is best to purchase the policy just prior to making full payment for the tour or at the time you purchase airline tickets, depending upon the airlines restrictions.

Field Guides reserves the right to cancel any tour prior to departure, in which case full refund will constitute full settlement to the passenger. The right is reserved to substitute in case of emergency another guide for the original one.

TRIP CANCELLATION & MEDICAL EMERGENCY INSURANCE: We strongly recommend you consider purchasing trip cancellation (including medical emergency) insurance to cover your investment in case of injury or illness to you or your family prior to or during a trip. Because we must remit early (and substantial) tour deposits to our suppliers, you acknowledge and agree that we will not issue a refund when cancellation occurs within 70 days of departure, and only a partial refund from 70 to 119 days prior to departure (see CANCELLATION POLICY). In addition, the Department of State strongly urges Americans to consult with their medical insurance company prior to traveling abroad to confirm whether their policy applies overseas and if it will cover emergency expenses such as a medical evacuation. US medical insurance plans seldom cover health costs incurred outside the United States unless supplemental coverage is purchased. Furthermore, US Medicare and Medicaid programs do not provide payment for medical services outside the United States.

When making a decision regarding health insurance, Americans should consider that many foreign doctors and hospitals require payment in cash prior to providing service and that a medical evacuation to the United States may cost well in excess of \$50,000. Uninsured travelers who require medical care overseas often face extreme difficulties. When

consulting with your insurer prior to your trip, please ascertain whether payment will be made to the overseas healthcare provider or whether you will be reimbursed later for expenses that you incur.

US citizens will receive information from us regarding optional tour cancellation/emergency medical insurance. Our agent, CSA, will insure for trip cancellation and interruption, medical coverage, travel delay, baggage loss and delay, and emergency medical transportation. If you purchase the insurance prior to, or within 24 hours of making final payment for the tour, and cover all non-refundable parts of the trip (including any non-refundable flights and in some cases, other arrangements), pre-existing conditions are covered. You may purchase your CSA policy on-line by visiting our website at <https://fieldguides.com/trip-cancellation-insurance/> and clicking the link to CSA. The CSA webpage also includes a contact number.

Currently we are unable to offer CSA insurance policies to residents of New York and Hawaii. We have had clients provide positive feedback after acquiring insurance thru InsureMyTrip (<https://www.insuremytrip.com/>) in the past, and would suggest that company as an alternative. When purchasing insurance with a company other than CSA, you will want to understand whether the timing of your purchase will affect coverage before paying your first deposit. Insurance purchase requirements can vary from company to company, and such requirements could limit your options if you do not look into this until making your final payment for your tour. Please let us know if you have any questions about this.

Please note, once the insurance is purchased it is non-refundable, so please check with your tour manager prior to making the purchase to assure the tour will operate as scheduled. Citizens of other countries are urged to consult their insurance broker.

RESPONSIBILITY: For and in consideration of the opportunity to participate in the tour, each tour participant and each parent or legal guardian of a tour participant who is under 18 agrees to release, indemnify, and hold harmless Field Guides Incorporated, its agents, servants, employees, shareholders, officers, directors, attorneys, and contractors as more fully set forth in the Release and Indemnity Agreement on the reverse side of the registration form. Field Guides Incorporated acts only as an agent for the passenger in regard to travel, whether by railroad, motorcar, motorcoach, boat, airplane, or other means, and assumes no liability for injury, damage, loss, accident, delay, or irregularity caused by defect in such vehicles or for any reason whatsoever, including the acts, defaults, or bankruptcies of any company or person engaged in conveying the passenger or in carrying out the arrangements of the tour. You acknowledge and agree that Field Guides Incorporated is not responsible for losses or additional expenses due to delay or changes in air or other services, sickness, weather, strike, war, quarantine, or other causes. The tour participant shall bear all such losses and expenses. Field Guides Incorporated reserves the right to substitute hotels of similar category for those indicated and to make any changes in the itinerary where deemed necessary or caused by changes in air schedules. Field Guides Incorporated reserves the right to decline to accept or to retain any person as a member of any tour. Baggage is at owner's risk entirely.

Participants should be in good health and should consult a physician before undertaking a tour. If you have questions about the physical requirements of a tour, please contact our office for further information. Participants should prepare for the tour by reading the detailed itinerary, the information bulletin, and other pertinent matter provided by Field Guides. Each participant is responsible for bringing appropriate clothing and equipment as recommended in our bulletins.

THE RECEIPT OF YOUR TOUR DEPOSIT SHALL BE DEEMED TO BE CONSENT TO THE ABOVE CONDITIONS. EACH TOUR PARTICIPANT AND EACH PARENT OR LEGAL GUARDIAN OF A TOUR PARTICIPANT WHO IS UNDER 18 SHALL SIGN AND DELIVER THE RELEASE AND INDEMNITY AGREEMENT AT THE TIME OF REGISTRATION.
