

# Trip Report — Colombia's Eastern Cordillera 2026

January 13-21, 2026 with Jesse Fagan

Our group at La Herreria after seeing the endemic Cundinamarca Antpitta. Thanks for a great trip!

What a whirlwind trip around the birding hotspots of Bogota! It's impressive the number of species we were able to record in just seven days of birding mostly within the "grasp" of the capital city. It does require some early starts to beat the traffic, but it's very much worth it for so many birds in such a short period. Despite the proximity to a city with over 10 million inhabitants, the tour also samples a nice altitudinal range of ecosystems from sea level in the *llanos* near Villavicencio, the Andean foothills at Chicaque and Pedro Palo, montane forest at Chingaza National Park, and *paramo* grasslands at Sumapaz. The corresponding flora and fauna were also quite diverse. For example, on this tour we saw Giant Anteater and Apolinar's Wren! Go figure.

One of my favorite shots of the trip was this endemic Apolinar's Wren taken by Linnet Tse at Sumapaz NP.

So, yes, the tour is in and out of Bogota but by design it also spends a considerable amount of time not in the city. We started off in the small town of La Vega visiting a site called Tabacal. The parking lot was buzzing with birds early in the morning. We quickly ticked off Bar-crested Antshrike, Black-bellied Wren, and Spectacled Parrotlets, among others. By the time the gates opened we were well on our way to 100 species that morning. We managed to pull out decent looks of Blue-lored Antbird on the trails, plus chattering Checker-throated Stipplethroats, and a surprise Velvet-fronted Euphonia. A quick visit to Jardin Encantado later in the day had us drowning in hummingbird action. The endemic Indigo-capped Hummingbird was common, and a female Gorgeted Woodstar buzzed in an appearance. In total, we tallied eleven species of hummingbird here.

We spent our first two nights near the town of La Mesa where we visited Chicaque Nature Park on the first morning. It was a little slow in the dense fog that shrouded the site for most of the day, but we hit a couple of the mega-flocks that Chicaque is famous for. One of those flocks contained 30+ individuals (lots of Grass-green Tanagers and Ashy-throated Chlorospingus) including Brown-billed Scythebill, Yellow-billed Cacique (all too brief!), Montane and Lineated foliage-gleaners, and Fawn-breasted Tanager. It was one of those flocks you dream of! And most of the group got a kick out of thermaling a Blackish Tapaculo! (Honestly, it's practically the only way to find those little guys!) The next morning, we drove up to Pedro Palo for a morning worth of birding before heading back into Bogota. It was easy walking with lots of birds at eye-level and our best looks at Speckle-breasted Wren, Plain Antvireo, Flame-faced Tanager, and a giant Copperhead Tarantula.

Crushing shot by participant Myles McNally of a Fawn-breasted Tanager at Chicaque. This was one of the group's favorite birds.

There were a couple of mornings spent at higher elevations on the tour. At Chingaza we focused on the montane forest “sub-paramo.” It’s always about finding the flocks here, and we hit a couple that added greatly to our species list. It’s also more quality vs. quantity at these elevations. Standouts this morning include Pale-bellied Tapaculo, Pale-naped Brushfinch, Black-chested Mountain Tanager, and Rufous-browed Conebill. We made a stop at Observatorio de Colibri in the afternoon and what an amazing place. Not many spots in the world you can photograph Longuemare’s Sunangel, Black-tailed Trainbearer, Glowing Puffleg, Sword-billed Hummingbird, and Blue-throated Starfrontlet without taking one step. The following day we traveled across town climbing a little higher into a strange other-worldly habitat of bunch grass and Espeletia plants. There were a lot of new trip birds here for us: Green-bearded Helmetcrest, Boyaca Antpitta, Chestnut-winged Cinclodes, Many-striped Canastero, Plain-capped Ground-Tyrant, and Apolinar’s Wren. That’s a significant haul of high-quality birds.

You can appreciate the white chest of this White-chested Puffbird taken at Bosque Bavaria by Myles McNally.

From the Bogota plain, we then descended for the last two days of the tour into the eastern lowlands. This ended up being one of the group highlights of the tour. Our evening out on the *llanos* plain was magical as dusk settled in around us and we watched Giant Anteaters come out into the open grass and Yellow-crowned Amazons, sounding a lot like little babies crying for their bottle, settled in for the night. Earlier that afternoon we had stood awe struck as a troop of Ornate Titi Monkeys slowly worked their way across the road in front of us, jumping limbs and climbing fences until they found the safety of a larger forest patch. I would be remiss to not mention our birding at Bosque Bavaria and our lovely little lodge at Camana (so much hospitality!). Both provided new birds and judging by all the fantastic photos, great looks, too. Finally, the last morning we climbed into the eastern foothills of the Eastern Cordillera to meet up with the Herrera family. It was here that we saw a little known antpitta described to science in 1992 by

Gary F. Stiles but first observed by Peter G. Kaestner in October 1989. The Cundinamarca Antpitta, thanks to the Herrera family, is now viewable at their hide and we were lucky enough to observe and photograph one. It was a beautiful morning looking across the Andes from their porch, and a great way to end the trip.

Thanks to all of you for joining me on this fun adventure. I look forward to our next trip. I also need to thank Manuela and Dario for their excellent work. All the best in 2026 and beyond.

What an amazing photograph by Linnet Tse of this Orate Titi Monkey near Camana. We love the posture and composition of the photo. Well done.

2	<b>Giant Cowbird</b> <i>Molothrus oryzivorus</i>	▶  2
3	<b>Carib Grackle</b> <i>Quiscalus lugubris</i>	▶  2
31	<b>Oriole Blackbird</b> <i>Gymnomystax mexicanus</i>	▶  3
1	<b>Northern Waterthrush</b> <i>Parkesia noveboracensis</i>	▶  1
2	<b>Black-and-white Warbler</b> <i>Mniotilta varia</i>	▶  2
1	<b>Tennessee Warbler</b> <i>Leiothlypis peregrina</i>	▶  1
1	<b>Mourning Warbler</b> <i>Geothlypis philadelphia</i>	▶  1
3	<b>Tropical Parula</b> <i>Setophaga pitiayumi</i>	▶  2
34	<b>Blackburnian Warbler</b> <i>Setophaga fusca</i>	▶  4
2	<b>Blackpoll Warbler</b> <i>Setophaga striata</i>	▶  2
1	<b>Chestnut-capped Warbler</b> <i>Basileuterus delatirii</i>	▶  1
2	<b>Golden-crowned Warbler</b> <i>Basileuterus culicivorus</i>	▶  1
2	<b>Three-striped Warbler</b> <i>Basileuterus tristriatus</i>	▶  1
10	<b>Black-crested Warbler</b> <i>Myiothlypis nigrocristata</i>	▶  2
1	<b>Buff-rumped Warbler</b> <i>Myiothlypis fulvicauda</i>	▶  1
6	<b>Russet-crowned Warbler</b> <i>Myiothlypis coronata</i>	▶  2
3	<b>Canada Warbler</b> <i>Cardellina canadensis</i>	▶  1
10	<b>Slate-throated Redstart</b> <i>Myioborus miniatus</i>	▶  1
6	<b>Golden-fronted Redstart</b> <i>Myioborus ornatus</i>	▶  3
4	<b>Summer Tanager</b> <i>Piranga rubra</i>	▶  2
4	<b>Rose-breasted Grosbeak</b> <i>Pheucticus ludovicianus</i>	▶  3
2	<b>Superciliaried Hemispingus</b> <i>Thlypopsis superciliaris</i>	▶  1
2	<b>Gray-headed Tanager</b> <i>Eucometis penicillata</i>	▶  1

8	<b>Silver-beaked Tanager</b>	<i>Ramphocelus carbo</i>	▶  1
6	<b>Crimson-backed Tanager</b>	<i>Ramphocelus dimidiatus</i>	▶  2
6	<b>Blue-capped Tanager</b>	<i>Sporathraupis cyanocephala</i>	▶  1
4	<b>Grass-green Tanager</b>	<i>Chlorornis riefferii</i>	▶  1
7	<b>Black-chested Mountain Tanager</b>	<i>Cnemathraupis eximia</i>	▶  1
8	<b>Scarlet-bellied Mountain Tanager</b>	<i>Anisognathus igniventris</i>	▶  2
2	<b>Buff-banded Mountain Tanager</b>	<i>Dubusia taeniata</i>	▶  2
4	<b>Fawn-breasted Tanager</b>	<i>Pipraeidea melanonota</i>	▶  2
8	<b>Blue-gray Tanager</b>	<i>Thraupis episcopus</i>	▶  3
4	<b>Palm Tanager</b>	<i>Thraupis palmarum</i>	▶  3
1	<b>Black-capped Tanager</b>	<i>Stilpnia heinei</i>	▶  1
1	<b>Scrub Tanager</b>	<i>Stilpnia vitriolina</i>	▶  1
2	<b>Masked Tanager</b>	<i>Stilpnia nigrocincta</i>	▶  1
8	<b>Blue-necked Tanager</b>	<i>Stilpnia cyanicollis</i>	▶  3
3	<b>Beryl-spangled Tanager</b>	<i>Tangara nigroviridis</i>	▶  1
2	<b>Metallic-green Tanager</b>	<i>Tangara labradorides</i>	▶  2
2	<b>Plain-colored Tanager</b>	<i>Tangara inornata</i>	▶  1
10	<b>Turquoise Tanager</b>	<i>Tangara mexicana</i>	▶  1
22	<b>Bay-headed Tanager</b>	<i>Tangara gyrola</i>	▶  2
3	<b>Flame-faced Tanager</b>	<i>Tangara parzudakii</i>	▶  1
1	<b>Swallow Tanager</b>	<i>Tersina viridis</i>	▶  1
1	<b>Green Honeycreeper</b>	<i>Chlorophanes spiza</i>	▶  1
2	<b>Chestnut-vented Conebill</b>	<i>Conirostrum speciosum</i>	▶  1

- 1 **Blue-backed Conebill** *Conirostrum sitticolor* ▶ 🗑️ 1
- 2 **Capped Conebill** *Conirostrum albifrons* ▶ 🗑️ 1
- 2 **Rufous-browed Conebill** *Conirostrum rufum* ▶ 🗑️ 1
- 4 **Glossy Flowerpiercer** *Diglossa lafresnayii* ▶ 🗑️ 1
- 8 **Black Flowerpiercer** *Diglossa humeralis* ▶ 🗑️ 4
- 4 **White-sided Flowerpiercer** *Diglossa albilatera* ▶ 🗑️ 2
- 1 **Bluish Flowerpiercer** *Diglossa caerulescens* ▶ 🗑️ 1
- 3 **Masked Flowerpiercer** *Diglossa cyanea* ▶ 🗑️ 2
- 33 **Saffron Finch** *Sicalis flaveola* ▶ 🗑️ 5
